NURSERIES

*Saw Mill River Parkway
East View • New York*

Rosedale Nurseries

Maintaining and extending the home garden is the greatest morale-building factor available at this time. Little that is vital to defense goes into the growing, handling and planting of the home grounds and the results are a permanent investment in ever increasing beauty.

Despite an increasing scarcity of plant materials, we believe our offerings are as complete as can be found anywhere in the East. The close attention to cultivation and care, including root-pruning, makes ROSEDALE STOCK a better than ever bet for 1945.

Prices quoted here are for a fine grade of plant and include local delivery. We reserve the right where necessary to change prices without notice and to charge for personally selected plants according to their individual value.

We hope that it will be possible for you to visit us at the nursery and make your own selection this season. Many times we can dig immediately and you can take the plants with you and save a lot of time.

Howard C Taylor

VISIT THE NURSERIES . . . Nursery entrance is directly on Saw Mill River Parkway between Elmsford and Hawthorne Circle . . . By train—Harlem Division of the New York Central to Hawthorne . . . Taxi Fare to Nursery is 50c. for one, 70c. for two

Our Guarantee: We guarantee all nursery stock to be in first-class condition when delivered to the customer. Please advise us promptly of any damage or loss in handling.

We guarantee our nursery stock to be true to name and use every care to properly label as sold. Should any prove untrue we agree to replace or refund purchase price.

Provided account is paid in accordance with agreed upon terms (60 days net) and plants have received reasonable care, we will replace at one-half price of the plants, any woody plants furnished which if planted in the Spring fail to survive through the Summer, or if planted in the Fall, fail to leaf out the following Spring. Plants originally planted by us shall be replaced as above plus the cost of planting.

Member of: New York State Nurserymen's Association
American Association of Nurserymen

The illustrations and prices are typical of our large and varied stock, but specific plants may not be available at all times

White Pine
screen underplanted
with Pieris and Azalea

CHAMAECYPARIS - *Retinospora*

These thrive best in moist soils and situations not too much exposed to Wintery gales. They are generally rapid growing types and should receive frequent shearing to keep them thick and attractive.

Obtusa nana compacta (*Dwarf Hinoki Cypress*). Very dwarf, dark green, irregular foliage. Extremely interesting plant for rockwork.

15 to 18 in.....	\$4.25
18 to 24 in.....	5.00
2 to 2½ ft.....	7.50
2½ to 3 ft.....	10.00

Pisifera. Quick-growing, feathery evergreen. Attains large size and grows bushy and thick. Useful for screen.

3 to 4 ft.....	\$4.50
----------------	--------

P. aurea. A beautiful golden form with same delicate foliage as Pisifera.

2½ to 3 ft.....	\$4.50
-----------------	--------

Plumosa (*Plume Cypress*). Light green, soft, feathery, plume-like foliage; graceful habit.

2½ to 3 ft.....	\$4.00
-----------------	--------

P. aurea (*Golden Plume Cypress*). Similar to Plumosa listed above except that the tips of growth are a golden color giving the entire plant a yellow cast.

2½ to 3 ft.....	\$4.50
-----------------	--------

Squarrosa (*Moss Cypress*). A handsome, glaucous tree of striking appearance and color. Our strain is especially bright in color.

2 to 3 ft.....	\$4.50
4 to 5 ft.....	10.00

Evergreens

Rosedale Evergreens must be seen to be appreciated. They are healthy, vigorous, well-shaped and grown in a river valley soil ideally suited for safe and easy transplanting. We invite your personal selection and believe we can assist you in a proper selection of varieties better here at the nursery than any other way.

A combination of Evergreens and Evergreen Shrubs will produce an all-year planting of unsurpassed beauty. The variety of color formation available in Evergreens is not only extensive but almost unlimited.

ABIES - *Fir*

Homolepis (*Nikko Fir*). Hardy, beautiful Fir from the Orient. Dark green needles, silver on underside.

4 to 5 ft.....	\$8.00
5 to 6 ft.....	10.00
6 to 7 ft.....	12.00

CRYPTOMERIA

Japonica lobbi. A narrow, irregular column of dark green foliage changing to bronze in Winter. Useful for accent in formal planting.

6 to 7 ft.....	\$9.00
7 to 8 ft.....	12.00

The most important part of any tree is its root system. Here at Rosedale a great deal of emphasis is put on the development of the root system. Frequent transplanting and root pruning develops fibrous rather than heavy roots. This enables us to retain the entire root system when digging and means quicker and more vigorous growth when transplanted to your grounds. This is your assurance of satisfaction and real pleasure in your purchase.

We suggest doing your own planting wherever possible and it is easy to have success with Rosedale Evergreens. During the present shortage of labor, deliveries will be much more prompt if we are not required to plant.

Nikko Fir

EVERGREENS—Continued

Communis depressa plumosa (*Plumed Spreading Juniper*). A dwarf form with grayish-green, plummy foliage.

18 to 24 in.....	\$3.00
2 to 2½ ft.....	4.00
2½ to 3 ft.....	5.00
3 to 4 ft.....	7.50

Excelsa stricta (*Greek Juniper*). Of upright, columnar habit with glaucous foliage.

12 to 15 in.....	\$1.50
15 to 18 in.....	2.25
18 to 24 in.....	2.75

Chandlers Silver. A bright, silvery upright Juniper of good form and attractive habit.

2½ to 3 ft.....	\$5.50
-----------------	--------

Hibernica (*Irish Juniper*). A narrow, columnar, blue-green type. Attains about 7 to 8 ft. in height and is a great favorite for accent points in the garden.

18 to 24 in.....	\$2.75
------------------	--------

Cryptomeria lobbi

JUNIPERUS

Juniper

All the Junipers are valuable ornamental plants—the upright species as single specimens or in groups and the low forms well adapted for rockery, slopes or banks. Junipers thrive best in a sandy, loam soil in sunny, open situations.

Juniperus

Juniperus Chandlers Silver depressa plumosa

Chinensis pfitzeriana (*Pfitzer's Spreading Juniper*). A handsome spreading form, slightly larger than most other spreading types. It has gray-green, plume-like foliage and is extremely useful as a filler in foundation or border planting. Hardy and indifferent to drought.

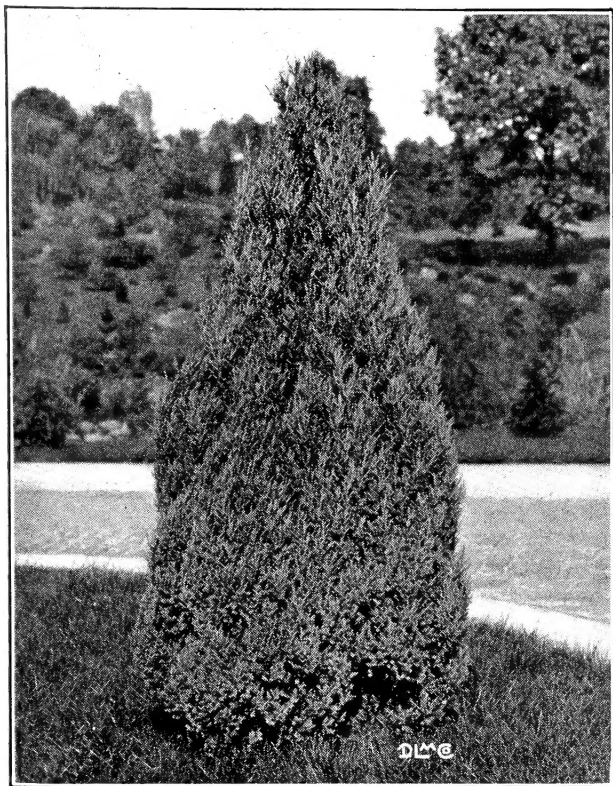

18 to 24 in.....	\$3.50
2 to 2½ ft.....	5.00
2½ to 3 ft.....	6.00
3 to 3½ ft.....	7.50
3½ to 4 ft.....	10.00

Chinensis sargentii. A low, trailing form with deep green foliage. Best Juniper for rock gardens.

18 to 24 in.....	\$5.00
2 to 2½ ft.....	7.00
2½ to 3 ft.....	9.00

Juniperus pfitzeriana and sargentii

Juniperus stricta

EVERGREENS—Continued

PICEA - Spruce

No group of Evergreens is more widely used in landscape work than the Spruces and many of them are among the most showy and rapid growing of their class. Spruces will grow in almost any kind of moderately moist soil and are easily transplanted.

Canadensis albertiana (*Black Hills Spruce*). Grows into a neat, compact, cone-shape with gray-green needles. Very hardy.
 3 to 3½ ft. \$3.50
 3½ to 4 ft. 4.75

Excelsa (*Norway Spruce*). Rapid-growing Christmas tree type attaining great size. Useful for windbreak or individual specimen.
 18 to 24 in. \$2.25
 2 to 3 ft. 3.00

Glauca albertiana conica (*Dwarf Alberta Spruce*). A dwarf form of dense, narrow, conical habit, with thin, slender leaves.
 10 to 12 in. \$1.75
 12 to 18 in. 2.75
 15 to 18 in. 3.50

Austrian Pine

PINUS - Pine

The Pines are essentially inhabitants of poor, sandy soils and dry situations. Their stout root systems enable them to seek scanty water supplies where other species find it difficult, and they thrive in any good soil.

Cembra (*Swiss Stone Pine*). Hardy dark green foliage; tree symmetrical, slow growing and compact. A very handsome lawn specimen narrowly pyramidal.

2 to 3 ft. \$6.00
 4 to 5 ft. 12.00

Montana mugho (*Dwarf Mugho Pine*). Low mounded Pine with short, stubby needles. Slow in growth, attaining greater spread than height.

18 to 24 in. \$2.75
 2 to 2½ ft. 3.50
 2½ to 3 ft. 4.50

Koster Blue Spruce

Cembra Pine

Juniperus—Continued

Horizontalis glauca (*Blue Creeping Juniper*). A blue-green type of irregular habit which adapts it to planting over outcropping rock. Desirable creeping plant.

2 to 2½ ft. \$3.25

Virginiana keteleeri (*Keteleer Juniper*). Named for a landscape architect in Paris. This comparatively new variety is never attacked by aphid or blight. It grows in pyramidal form and is of very pleasing, light green color which it maintains during Winter.

2½ to 3 ft. \$4.75
 3½ to 4 ft. 7.50
 4 to 5 ft. 9.00

Picea—Continued

Orientalis (*Oriental Spruce*). The deep, glossy green foliage is smaller and more dense than that of the other Spruces and brighter and richer than that of the Norway Spruce. It is a tree of remarkable beauty. Our stock of this beautiful species is a wonder to all who visit us.

3 to 3½ ft. \$7.50

Pungens kosteriana (*Koster Blue Spruce*). Striking blue needles and uniform shape make it a beautiful lawn specimen.

2 to 2½ ft. \$8.50
 4 to 4½ ft. 15.00
 4½ to 5 ft. 17.50
 5 to 5½ ft. 20.00
 5½ to 6 ft. 25.00

Mugho Pine

EVERGREENS—Continued

PSEUDOTSUGA

Douglasi (*Douglas Fir*). This handsome tree has gray-green foliage, is very hardy and extremely ornamental at all stages of growth. Its hardiness and beauty would be difficult to overrate. Thrives in Canada and will endure both drought and cold. Some specimens are rich deep green, others almost as blue as Blue Spruce. Douglas Fir does extremely well with us and believe we have superior stock to offer.

3 to 4 ft.....	\$4.00	5 to 6 ft.....	\$9.00
4 to 5 ft.....	7.00	6 to 7 ft.....	12.00
7 to 8 ft.....	\$16.00		

SCIADOPITYS

Verticillata (*Japanese Umbrella Pine*). A beautiful specimen for the lawn, narrowly pyramidal, with large, rich green needles in whorls. Very hardy and unusual.

2½ to 3 ft.....	\$5.00	3 to 4 ft.....	\$7.50
4 to 5 ft.....	\$10.00		

TAXUS - Yew

The Yews are very desirable Evergreens, densely clothed with dark green foliage. They thrive best in a moderately moist, sandy loam and endure shade well.

The hardiness and freedom from ills together with their dark green color and slow, rugged development, has made the Yews most popular of needled Evergreens. The modern planting includes a large number of Yews. The many varied shapes and types of growth make the Yews most satisfactory for so many different locations. Among other uses they make the finest of hedges.

Baccata repandens (*Spreading English Yew*). This dwarf, spreading form with its beautiful foliage and graceful, drooping branches is unique.

15 to 18 in.....	\$3.75	2 to 2½ ft.....	\$6.00
18 to 24 in.....	4.50	3 to 4 ft.....	12.00
4 to 5 ft.....	\$15.00		

Cuspidata (*Spreading Japanese Yew*). Dense, spreading habit. Deep green foliage. Especially useful near the house. Very hardy.

12 to 15 in.....	\$2.75
15 to 18 in.....	3.75
18 to 24 in.....	5.50
2 to 2½ ft.....	6.75
2½ to 3 ft.....	7.50
3 to 3½ ft.....	9.00
3½ to 4 ft.....	14.00
4 to 5 ft.....	\$17.50 to 25.00

Douglas Fir

Pinus—Continued

Nigra austriaca (*Austrian or Black Pine*).

This flourishes near the seacoast and on high, bleak hills or in cities where smoke and dust would prohibit the use of many other evergreens.

2 to 3 ft.....	\$3.75
3 to 4 ft.....	5.50
4 to 5 ft.....	7.50

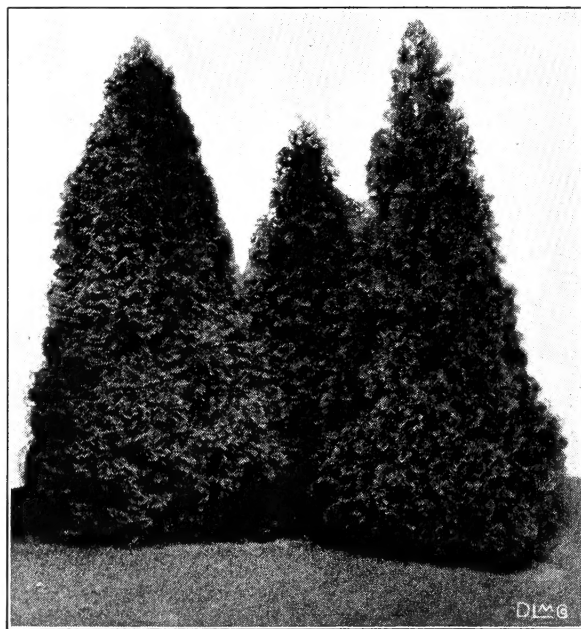

Parviflora glauca (*Oriental White Pine*).

A hardy tree of irregular growth with bluish green needles in tufts at the ends of branches. Very picturesque.

3 to 4 ft.....	\$7.50
4 to 5 ft.....	9.00

Resinosa (*Norway Red Pine*). Native in northeastern states and Canada. It is often planted in places where no other Pine will grow. Its luxuriant, dark green foliage and vigorous growth make it an important Pine for bold effects. Very hardy and adapts itself to many situations and soils.

2 to 3 ft.....	\$3.50
----------------	--------

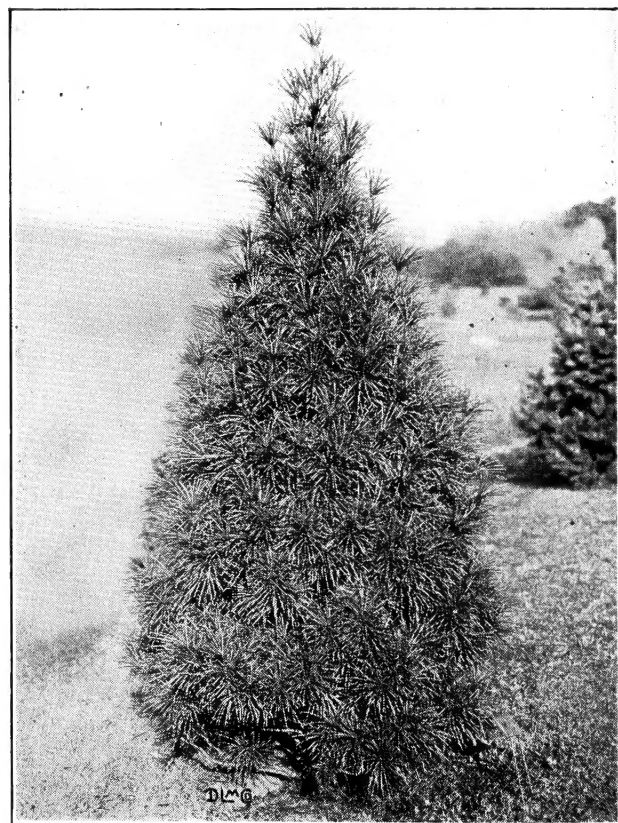

American Arborvitae

Strobus (*White or Weymouth Pine*).

This is beautiful in every stage of its growth, from a seedling to a stately tree of 150 ft. No other evergreen fulfills so well the requirements for rapid growth and none transplants more easily. Our large specimens, 35 ft. high and 18 ft. broad, may be moved with perfect safety.

2 to 3 ft..	\$3.50	4 to 5 ft.	\$7.00
3 to 4 ft..	5.00	5 to 6 ft.	8.00
6 to 7 ft.	10.00		

Sciadopitys

EVERGREENS—Continued

TAXUS—Continued

Cuspidata brevifolia (*Dwarf Japanese Yew*). Dwarf, compact, very hardy.
 12 to 15 in.....\$3.00
 15 to 18 in..... 4.50
 18 to 24 in..... 5.50
 2 to 2½ ft..... 9.00
 2½ to 3 ft.....12.00
 3 to 3½ ft.....17.50

Cuspidata columnaris (*Columnar Yew*). This grand form of Yew is a natural column shape without much trimming, will attain 8 to 10 ft. height.
 4½ to 5 ft.....\$12.00
 5 to 5½ ft..... 16.00

Cuspidata capitata (*Upright Japanese Yew*). Upright tree form of T. cuspidata; very desirable for foundation planting. Best of evergreen hedges.
 18 to 24 in.....\$4.75
 2 to 2½ ft..... 6.00
 2½ to 3 ft..... 7.50
 3 to 3½ ft.....10.00
 3½ to 4 ft.....12.50
 4 to 4½ ft.....17.50
 5 to 6 ft.....25.00
 6 to 7 ft.....35.00
 7 to 8 ft.....50.00

Hatfieldi (*Hatfield Upright Yew*). Finest upright Yew. Holds its form almost without trimming.
 15 to 18 in.....\$3.75
 18 to 24 in..... 5.00
 2 to 2½ ft..... 6.00
 2½ to 3 ft..... 7.50
 4½ to 5 ft.....17.50
 5 to 5½ ft.....25.00

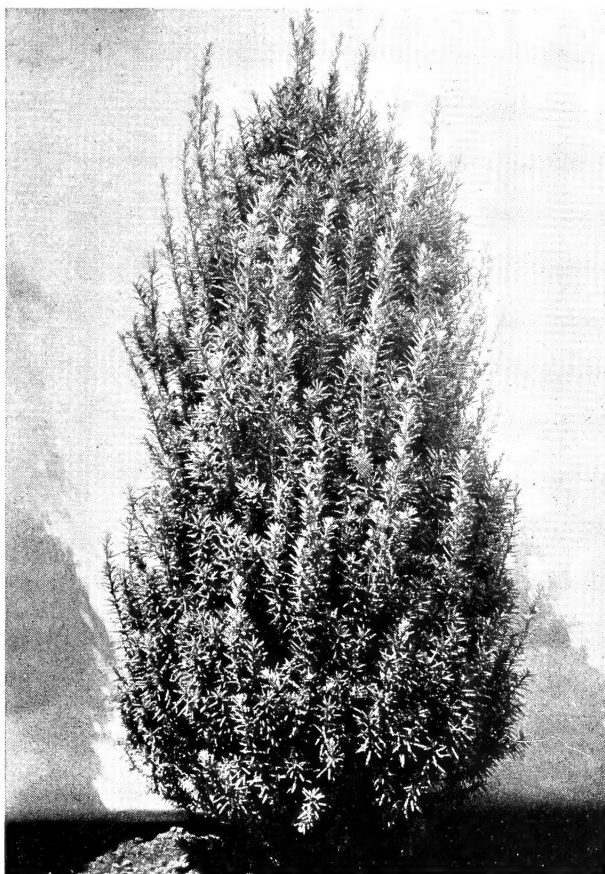

Hicksi (*Hicks Yew*). Interesting form of this most useful family. Exceptionally dark green needles. Grows in an upright, columnar shape.
 15 to 18 in.....\$3.50
 18 to 24 in..... 4.00
 2 to 2½ ft..... 5.00
 2½ to 3 ft..... 7.50
 3 to 3½ ft..... 9.00
 3½ to 4 ft.....11.00
 4 to 4½ ft.....15.00
 4½ to 5 ft.....17.50
 5 to 6 ft.....\$20.00 to 25.00

Hunnewelliana (*Hunnewell Yew*). The ideal Hedge Yew. Somewhat similar to Japanese Yew, except for a more uniform, perfect vase shape. Very fine for foundation planting or low hedges.
 2 to 2½ ft.....\$7.50 | 2½ to 3 ft.....\$9.00 | 3 to 3½ ft.....\$12.00

Intermedia. Semi-dwarf variety, much superior to Cuspidata for foundation planting; dense and compact.
 15 to 18 in.....\$3.75
 18 to 24 in..... 5.00
 2 to 2½ ft..... 6.50
 2½ to 3 ft..... 9.00

Media browni. Slightly more erect than Cuspidata. Always better filled in center and forms large mound.
 18 to 24 in.....\$4.50
 2 to 2½ ft..... 6.00

Media, Irish. A dense compact mound with slender, shiny dark green needles.
 18 to 24 in.....\$5.00
 2 to 2½ ft..... 7.00

Taxus hicksi

Taxus hatfieldi

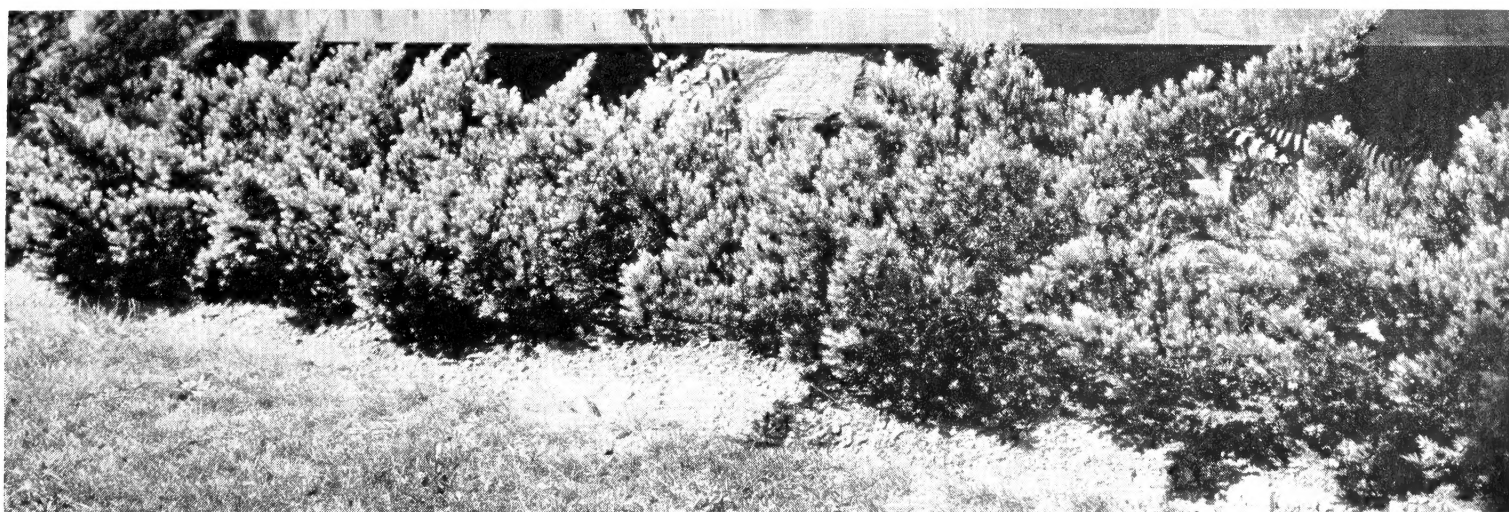

Moon's Columnar Yew. An upright Yew resembling the Hicks variety with dense, heavy, deeply foliated rich green in Winter as well as Summer. A suitable substitute for Boxwood. Splendid for hedge.
 18 to 24 in.....\$4.50
 2 to 2½ ft..... 6.00
 2½ to 3 ft..... 7.50

Ovata. A particularly heavy berrying, upright Yew.
 18 to 24 in.....\$4.75

THUJA-Arborvitae

Ornamental evergreen trees of narrow-pyramidal habit. They are favorites for formal gardens because of their regular, symmetrical habit. Adapted for hedges and windbreaks. Thrive best in a moist, loamy soil, easily transplanted.

Occidentalis (*American Arborvitae*). Beautiful native tree, commonly known as White Cedar. Especially useful for hedges and screens.
 3 to 4 ft.....\$4.50
 4 to 5 ft..... 6.00
 5 to 6 ft..... 7.50
 6 to 7 ft.....10.00

Taxus brevifolia

EVERGREENS—Continued

TSUGA - Hemlock

Hemlocks can be used in many different ways; as lawn specimens they attain great size and beauty; by shearing they may be used in foundation planting and kept from overgrowing for years and years; for border or screen they form a most naturalistic background. Hemlocks thrive in shade or full sun and are practically immune to insects and disease.

Canadensis (*Canadian Hemlock*). A handsome, ornamental tree growing 70 to 100 ft. high. Dark green foliage. Hardy as far north as Canada.

2 to 3 ft....	\$3.25	6 to 7 ft..	\$16.00
3 to 4 ft....	5.00	7 to 8 ft..	18.00
4 to 5 ft....	8.00	8 to 9 ft..	20.00
5 to 6 ft....	12.00	9 to 10 ft..	25.00

Tsuga canadensis sargentii

THUJA—Continued

Occidentalis pyramidalis (*Pyramidal Arborvitae*). The deep green color and upright pyramidal form of this species renders it conspicuous in contrast with other evergreens. It is very hardy and vigorous. We recommend this Arborvitae for an evergreen hedge.

2½ to 3 ft.....	\$3.75
4 to 5 ft.....	5.75
5 to 6 ft.....	7.50
6 to 7 ft.....	9.00
7 to 8 ft.....	12.00

Occidentalis nigra (*Dark American Arborvitae*). An upright variety that maintains a dark, rich green.

4 to 5 ft.....	\$6.00
5 to 6 ft.....	7.50

Occidentalis rosenthali. Slow growing pyramidal and compact. Retains its rich green color all season.

3½ to 4 ft.....	\$6.00
4 to 4½ ft.....	7.50
4½ to 5 ft.....	9.00

Occidentalis spiralis. Compact tree, with upright branches and short, close set branchlets clothed with beautiful, dark foliage.

5 to 6 ft.....	\$7.50
6 to 7 ft.....	9.00
8 to 9 ft.....	12.00

Occidentalis woodwardi (*Woodward Globe Arborvitae*). Dense, globe-shaped variety which maintains its shape without shearing. The foliage is a pleasing sea-green in Summer; in Winter, bronze. Perfectly hardy. Grows about 3 ft. high.

15 to 18 in.....	\$2.50
18 to 24 in.....	3.50

Orientalis nana (*Golden Biota*). A neat compact, dwarf plant of round, or egg shape with yellow to bronze foliage. Always retains its neat, compact form without training.

10 to 12 in.....	\$1.50
15 to 18 in.....	2.25
18 to 24 in.....	2.75

Canadian Hemlock

Taxus hicksi in Nursery

Canadensis sargentii (*Sargent's Weeping Hemlock*). Makes a tremendous mound of wavy outline many times broader than high, always well clothed and neat. Like all good things it develops slowly but becomes a real possession in your "personal" effects. Magnificent.

2 to 3 ft.....	\$7.50
3 to 3½ ft.....	10.00
3½ to 4 ft.....	15.00

Caroliniana (*Southern Hemlock*). Native of the mountains of the Southern States and perfectly hardy here in the North. A beautiful tree with dark green foliage and a habit of growth which makes it distinctly different from our Canadian Hemlock.

3 to 4 ft.....	\$5.00
4 to 5 ft.....	8.00
5 to 6 ft.....	12.00
6 to 7 ft.....	16.00
7 to 8 ft.....	20.00

Evergreen Shrubs

for Year 'round
Beauty

There is no class of plants which give more satisfaction than Broadleaved Evergreens, for they are beautiful at all seasons of the year. Not only does this class include the most gorgeous flowering plants, but the foliage of some in Winter is even more beautiful than in Summer. This is especially true of the *Leucothoe* and *Mahonia*, whose leaves take on the finest shades of red, from bronze to intense scarlet. We are especially well supplied with these native American plants in both large and small sizes.

An interesting planting of Rhododendrons and Evergreens

ABELIA

Abelia grandiflora (*Glossy Abelia*). A splendid half evergreen shrub bearing dainty, bell-shaped pink flowers from July until frost. The glossy foliage will persist all Winter in a protected spot.

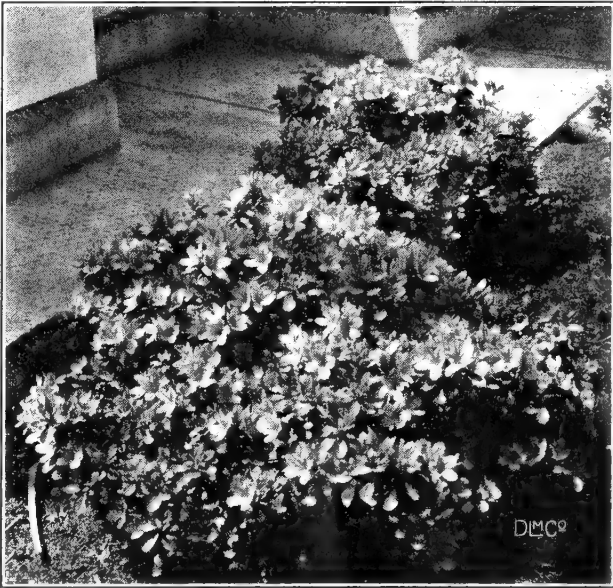

18 to 24 in.\$1.75 | 2 to 3 ft.\$2.25

AZALEAS

Azalea hinodegiri (Evergreen). Probably the best of the Evergreen Azaleas for color, foliage and form. A low, compact plant with handsome, waxy foliage which turns bronze in Winter. The flowers are clear fine red, borne in great profusion in May. Splendid for facing Laurel and Rhododendron as mass planting. This stock is thick and compact and loaded with flower buds.

Azalea kaempferi

Azalea hinodegiri

8 to 10 in. spread. \$1.50
10 to 12 in. spread. 1.75
12 to 15 in. spread. 3.00
15 to 18 in. spread. 3.75
18 to 24 in. spread. 5.50
2 to 2½ ft. spread. 9.00

Azalea hinomayo (Half Evergreen). Similar to Hinodegiri except for color which is a clear soft pink. The habit of growth is somewhat more irregular than Hinodegiri.

15 to 18 in. spread.\$4.75 | 18 to 24 in. spread.\$6.00

Azalea indica alba (Half Evergreen). Also called Snow Azalea. A fine combination with Hinodegiri, as the large white flowers appear at the same time. Grows slightly taller than most and is of purest white.

12 to 15 in.\$3.50 | 18 to 24 in.\$5.00
15 to 18 in. 4.25 | 2 to 2½ ft. 6.00

Azalea kaempferi (*Torch Azalea*). Half Evergreen. Not completely evergreen, but usually retains much of its foliage during Winter. Will grow to considerable height. The great profusion of bloom ranges in color from fire-red to salmon pink in varying shades.

12 to 15 in.\$2.75 | 2 to 2½ ft.\$6.00
15 to 18 in. 3.50 | 2½ to 3 ft. 7.50
18 to 24 in. 5.00 | 3 to 3½ ft.10.00
4 to 5 ft.\$15.00

EVERGREEN SHRUBS—Continued

AZALEAS—Continued

Azalea poukhanense (Half Evergreen). A broad plant of finest form with extremely large, lavender-blue, sweetly-scented blooms. Growth is modest and it is positively hardy, almost never losing a flower bud. We cannot recommend *Azalea poukhanense* too highly. Our stock is large and well grown.

18 to 24 in. \$5.00 | 2 to 2½ ft. \$6.00

Azalea Sunstar (Evergreen). A real hardy variety that will attain considerable size and usually grows about as wide as high. The profusion of bloom is unexcelled on any Azalea and is a coral red.

2½ to 3 ft. \$10.00 | 3 to 3½ ft. \$12.00

Azalea yodogawa (Half Evergreen). The double flowering counterpart of *Poukhanense*. Lavender blooms nearly blue.

2 to 2½ ft. \$4.50 | 3 to 3½ ft. \$7.50
2½ to 3 ft. 5.00 | 3½ to 4 ft. 10.00

DECIDUOUS AZALEAS

For convenience we list here other varieties of Azaleas which are not evergreen, but which are just as beautiful and useful. They are slightly more hardy than evergreen types and combine splendidly with Laurels and Rhododendrons, relieving the heavy, solid foliage of the Rhododendron with the lighter, more delicate, deciduous foliage.

Azalea altaclarensis. This is the finest yellow Azalea in our experience. Single, deep orange flowers changing to bright yellow, in large trusses. Hardy, good grower.

15 to 18 in. \$3.75

Azalea arborescens. This is one of the few really hardy white forms. Blooms are quite large and occasionally tinged pink. Blooms late, usually mid-June, and the blooms have a delightful fragrance. A most desirable variety for mass plantings of native material.

15 to 18 in. \$3.25
18 to 24 in. 4.25
2 to 2½ ft. 5.00
2½ to 3 ft. 7.50

Azalea calendulacea (*Flame Azalea*). A brilliant orange and yellow flowering native shrub. Tall but slow growing, free flowering.

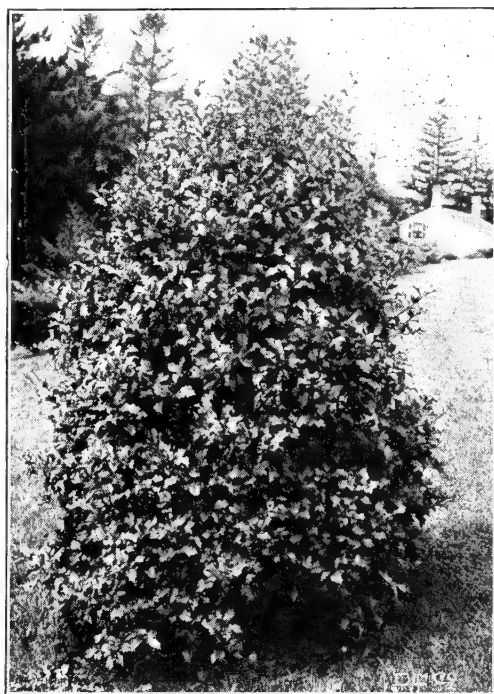

2 to 2½ ft. \$4.50
2½ to 3 ft. 6.00
3 to 4 ft. 7.50
4 to 5 ft. 9.00

Azalea canescens (*Piedmont Azalea*). A slender branched native type which likes moisture. Clear pink flowers with considerable fragrance.

18 to 24 in. \$2.50
2 to 2½ ft. 3.75
2½ to 3 ft. 4.50
3 to 4 ft. 7.50

Azalea mollis (*Chinese Azalea*). A mass of delicately shaded, large, bell-shaped flowers running through orange and red tones. The flowers are probably the largest of the Azaleas and the profusion of blooms is unequaled. Likes plenty of sun and develops slowly.

15 to 18 in. \$3.75
18 to 24 in. 4.50

American Holly

Azalea mucronulata. A most worthwhile variety for planting in front of Forsythia. Blooms at same time and the color combination is most striking. Flowers are lavender-pink.

18 to 24 in. \$3.50
2 to 2½ ft. 4.50
2½ to 3 ft. 6.00

Azalea nudiflora (*Pinxterbloom*). Wild Honeysuckle. This lovely native is known to all who have tramped the woodlands in May. Fragrant pink.

18 to 24 in. \$2.75
2 to 3 ft. 4.00
3 to 4 ft. 6.00
4 to 5 ft. 8.00

Modern Base Planting combines color with evergreen effect by the liberal use of Evergreen Shrubs

Cotoneaster horizontalis

Azalea vaseyi (*Pinkshell Azalea*). Shell-pink flowers in May. Blossoms cover the entire plant and make a striking picture before foliage has developed. A most lovely type.

15 to 18 in. \$3.00
18 to 24 in. 4.50
2 to 2½ ft. 6.00
2½ to 3 ft. 7.50
3 to 3½ ft. 9.00

BERBERIS

B. julianae (*Wintergreen Barberry*). Evergreen. Yellow flowers and purple fruit. Good ornamental for border, foundation or hedge.

15 to 18 in. \$2.50
18 to 24 in. 3.50

B. verruculosa (*Warty Barberry*). Aristocrat of the Barberries. A dwarf evergreen showing red in the foliage when growing. Beautiful colors in Fall and Winter. Almost without equal for year around beauty.

12 to 15 in. \$2.00
15 to 18 in. 3.00

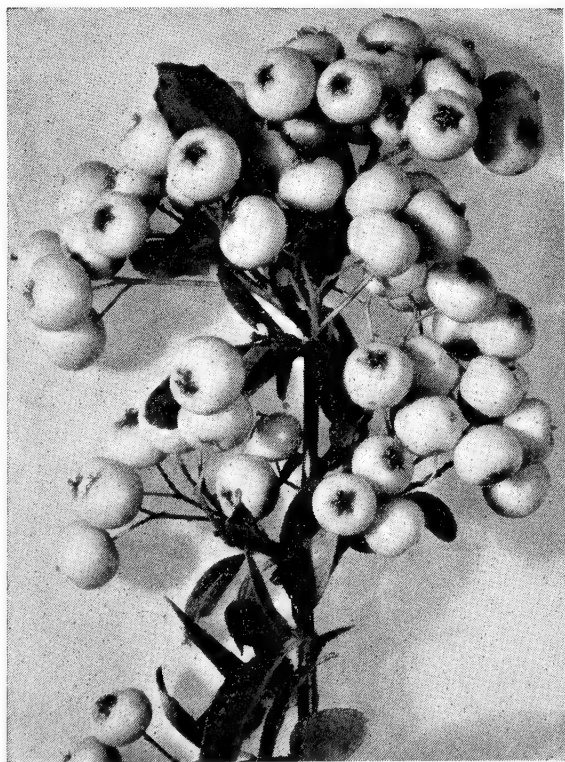

Kalmia latifolia

Pieris japonica

COTONEASTER

The large family of Cotoneasters has many members of high value for landscape plantings. Cotoneasters grown in an open situation generally prove to be hardy throughout northern United States. They vary greatly in habit and attractiveness and rely upon their brilliantly colored fruit, more than floral beauty, for decorative effect. They do not transplant as readily as some shrubs and must be carefully handled during the transplanting operation. The generally interesting branching habit, both the low sprawly types and those with arching branches, are decorative all year.

Pyracantha lalandi

Cotoneaster dielsiana. Fairly upright, arching branches, shiny, dark green leaves and red fruit. A valuable addition to any shrub group.
18 to 24 in.\$2.75

C. divaricata. A broadly spreading shrub which has tiny, glossy leaves interspersed with scarlet berries in Autumn. Vigorous grower.
18 to 24 in.\$1.75
2 to 3 ft. 2.50
3 to 4 ft. 3.75

C. francheti. Upright, dense shrub with wide spreading branches. Small pink flowers in June with a tremendous crop of orange berries in September; foliage grayish green.
15 to 18 in.\$1.75
18 to 24 in. 2.50
3 to 4 ft. 3.50

C. henryana. A graceful shrub of spreading, drooping habit with reddish foliage. Bears an abundance of red berried clusters in Fall. Very fine for covering slopes.
15 to 18 in.\$1.75
18 to 24 in. 2.50

Leucothoe

C. horizontalis. One of the most effective fruiting shrubs for the rockery. Its low branches, almost horizontal, bear a profusion of bright red berries.
15 to 18 in.\$1.75
18 to 24 in. 2.25

C. simonsi. Semi-evergreen, upright type with white flowers and red fruit. Very handsome.
18 to 24 in.\$2.75

DAPHNE

D. cneorum (Rose Daphne). Rose Daphne is a dainty little bush 1 to 2 ft. high with gray green foliage, each shoot tipped with clusters of clear rose pink flowers in April and May and again in Autumn. The fragrance is delightful and so strong a few plants will scent a wide area. Likes plenty of lime in the soil, must have full sun and loose soil which never becomes caked.

9 to 12 in.\$1.50
12 to 15 in. 1.75
18 to 24 in. 2.75

ILEX - The Hollies

There is something startling about the sight of a full-grown Holly tree aglow with red berries. Our imaginations are stirred by this familiar species not only because of its association with Christmas spirit and cheer, but by its crisp, dominant, year-round personality. Only one of this group looks anything like the tree Christmas Holly. They differ greatly in habit and use but all are among the most desirable of evergreen shrubs.

I. bullata (Boxleaf Holly). Resembles dwarf Boxwood in habit and foliage. Usually grows broader than high, with very glossy foliage. We recommend its wide use as it has a live, healthy look through the coldest weather.

15 to 18 in.\$2.75
18 to 24 in. 4.00
2 to 2½ ft. 5.00
2½ to 3 ft. 7.50

I. crenata. A rapid growing, dense evergreen bush with deep green, Boxwood-like foliage. A permanent plant of real character.

2 to 3 ft.\$4.00
3 to 4 ft. 6.50
4 to 5 ft. 12.00
5 to 6 ft. heavy. \$15.00 to 20.00

I. glabra (Inkberry). A bushy, upright growing, very hardy shrub with dark, oval foliage, small flowers and an abundance of glossy black fruit in the Fall. Useful for shady and moist locations.

18 to 24 in.\$2.75
2 to 2½ ft. 3.50
2½ to 3 ft. 5.00
3 to 4 ft.\$7.50 to 12.00

I. opaca (American Holly). The well known Christmas Holly, with red berries. Grows to a large tree but may be sheared to a dense bush. Both male and female plants should be planted. We believe we have one of the finest collections of American Holly available and all plants have been trained and transplanted frequently.

3 to 4 ft.\$6.00
4 to 5 ft. 10.00
5 to 6 ft. 15.00
6 to 7 ft. 20.00
7 to 8 ft. 25.00

KALMIA

K. latifolia (Mountain Laurel). The pink blooms of Mountain Laurel in June can hardly be matched by any other plant for profusion, delicate form or lasting quality. Most effective in group planting and must have acid soil.

15 to 18 in.\$2.50
18 to 24 in. 3.50
2 to 2½ ft. 4.75
2½ to 3 ft. 6.00
3 to 4 ft. 9.00

EVERGREEN SHRUBS—Continued

RHODODENDRONS

With beautiful blossoms in the Spring and rich green foliage during the Winter months, Rhododendrons are indispensable in any planting. Little care is needed after the plants are once established. They succeed in any light acid soil; enjoy Summer shade and dislike "wet feet." We will give you full instructions for planting and cultural care.

Carolinianum. A very early blooming variety, small and compact. Has handsome, dark green leaves and in May and June produces a profusion of soft rose pink bloom. A great favorite.

18 to 24 in.....	\$5.00
2 to 2½ ft.....	6.50
2½ to 3 ft.....	8.00
3 to 4 ft.....	12.00

Catawbiense. A native, free-flowering variety, the parent of most hybrids. Will grow in any soil that is free from lime, is very hardy, and needs little attention. Large, round clusters of deep rosy purple flowers appearing in May or June, just after R. Carolinianum. Well budded plants.

18 to 24 in.....	\$3.50
2 to 2½ ft.....	4.50
2½ to 3 ft.....	6.50
3 to 3½ ft.....	8.50

Maximum (Rosebay). Our native Rhododendron, with white and light pink flowers. Nursery-grown plants.

18 to 24 in.....	\$2.75
2 to 3 ft.....	3.50
3 to 3½ ft.....	5.00
3½ to 4 ft.....	6.00
4 to 5 ft.....	\$8.00 to 12.00

RHODODENDRON HYBRIDS

These are the grafted named Rhododendrons which produce such gorgeous displays of color in June.

We offer only varieties hardy in this section. Their foliage is somewhat better than native types, and they almost never fail to set bloom buds.

Hybrid Rhododendrons are so scarce this year that we can accept orders at the nursery only since we do not have sufficient stock to list varieties here.

The following colors are available: **Pink, Red, White, Lavender.**

18 to 24 in.....	\$6.50
2 to 2½ ft.....	8.00
2½ to 3 ft.....	10.00
3 to 3½ ft.....	15.00

LEUCOTHOE

L. catesbaei (Drooping Leucothoe). Most beautiful dwarf shrub for either shade or sun. White, bell-shaped flowers cover the drooping stems in early Spring. Prices are low for bushy plants. The Fall and Winter color of foliage is bronze to red and most decorative. Cut the stems for decoration inside and it improves the plant and the stems will last for weeks inside.

15 to 18 in.....	\$2.00
18 to 24 in.....	2.50
2 to 2½ ft.....	4.00
2½ to 3 ft.....	6.00

MAHONIA

M. aquifolia (Oregon Grape). Beautiful at all seasons of the year; in Winter the prickly, shiny, purplish leaves turn to the finest bronze and crimson.

15 to 18 in.....	\$1.75
18 to 24 in.....	2.50

PIERIS

P. japonica (Andromeda). Hardy Laurel-like leafed plant of unequalled value in a broadleaf planting. Glossy leaves of various shades with lovely sprays of Lily-of-the-valley-like clusters of white flowers in very early Spring.

15 to 18 in.....	\$2.50
18 to 24 in.....	4.00
2 to 2½ ft.....	6.00
2½ to 3 ft.....	8.00
3 to 3½ ft.....	12.00
4x4 ft. specimens.....	20.00

PYRACANTHA

P. coccinea lalandi (Firethorn). Semi-evergreen. Strong, slender branches rising from the ground develops stubby side growths upon which are hung the numerous orange red berries. Amazingly beautiful in the Fall, especially when planted against a gray stone background.

18 to 24 in.....	\$2.75
2 to 3 ft.....	5.00
4 to 5 ft. heavy.....	10.00

ROSES

Due to unfavorable weather conditions at budding time there are a limited number of Roses available this year. The scarcity of labor has added to the difficulties and at the time this catalog goes to press we are unable to list varieties available. We will offer a representative list of **Hybrid Tea** and **Climbing Roses**, and will send a mimeographed list of varieties to all who request it while stock lasts. This list should be available by the time your catalog arrives. If you are interested, just send a postal card and your descriptive variety list will be mailed promptly. Plants available April 1.

Standard Varieties.....\$1.00 each, \$11.00 per dozen

FOR THE LAWN

We are pleased to announce that we shall again handle **Scott's Lawn Seed** exclusively. This lawn seed has been sold since 1870 and has been famous for freedom from weeds and for high germination. It is grown and packed by **O. M. Scott and Sons Co.**, and is delivered to you in original sacks.

SCOTT'S LAWN SEED

All-purpose blend of deep-rooting, permanent grasses for open lawns in full sun or light shade. Triple cleaned by Scott's special process to remove chaff and assure 99.91% weed freedom. Rate: Sow 3 to 5 lbs. to 1000 square feet (area 50x20 feet).

1 lb. box...	\$0.75	5-lb. box...	\$3.65	25-lb. bag...	\$17.50
3-lb. box...	2.25	10-lb. bag...	7.25	50-lb. bag...	32.50

SCOTT'S FOR DENSE SHADE

The best selection of perennial grasses for areas receiving practically no sunlight. Harmonizes in color and quality with turf produced by other Scotts Seed.

1-lb. box...	\$0.85	5-lb. box...	\$4.15	25-lb. bag...	\$19.85
3-lb. box...	2.55	10-lb. bag...	8.25	50-lb. bag...	37.50

SCOTT'S BENTGRASS

For over 25 years, this aristocrat of lawn grasses has been making prize winning home lawns and championship golf putting greens. Will help established lawns if sown in them or mixed with other seed. Rate: 2 or 3 lbs. per 1000 square feet.

1-lb. jar...	\$1.75	3-lb. bag...	\$5.25	5-lb. bag...	\$8.50
--------------	--------	--------------	--------	--------------	--------

SCOTT'S CLOVER SEED

Finest quality high germinating seed. Not included in Scott mixtures because it is better to sow alone. Rate: Sparingly at $\frac{1}{4}$ to $\frac{1}{2}$ lb. per 1000 square feet.

$\frac{1}{2}$ lb. box.....	\$0.85	1-lb. box.....	\$1.55
----------------------------	--------	----------------	--------

SCOTT'S TURF BUILDER

Proper feeding each Spring and Fall with this enriched grass food keeps lawns healthy and sparkling green. Supplies all vital nutrients in correct proportion and goes twice as far—10 lbs. feeds 1000 square feet of lawn.

10-lb. sack.....	\$1.25	50-lb. sack.....	\$3.75
25-lb. sack.....	2.25	100 lbs. (2) sacks.....	6.50

SCOTT'S GARDEN BUILDER

Supplies plant elements gardens need to insure maximum yield of fruits and vegetables. Scatter 3 to 4 lbs. to each 100 square feet (10x10 feet) and work into soil.

10-lb. sack.....	\$0.75	50-lb. sack.....	\$2.35
25-lb. sack.....	1.45	100-lb. sack.....	3.65

FERTILIZERS

The success of any planting must ultimately depend largely on the available plant food. We are listing here a number of proven plant foods which we feel will help your garden materially.

AGRICO. A complete plant food for lawns, trees and shrubs. Economical and immediate in results.

10 lbs.....	\$0.80	50 lbs.....	\$2.50
25 lbs.....	1.50	100 lbs.....	4.00

AGRICO. For better gardens. Made especially for flowers and vegetables.

10 lbs.....	\$0.80	50 lbs.....	\$2.20
25 lbs.....	1.40	100 lbs.....	3.50

DRICONURE. Splendid organic fertilizer containing dehydrated cow manure and poultry manure and 25% peat moss. Clean, dustproof bags.

50-lb. bags.....	\$2.00
------------------	--------

NATURAL HUMUS. A screened Natural Humus full of plant-food and organic material. Especially recommended for mulching broadleaved evergreens and for mixing with soil in planting where top soil is poor. Sold in bulk.

Per cubic yard.....	\$8.50
Packed in sacks approximately 80 lbs..	\$1.50

RELIANCE—Broadleaved Evergreen Fertilizer. A scientifically blended fertilizer for use on Azaleas, Rhododendron, Laurel and all Broadleaved Evergreens.

100 lbs.....	\$5.00
--------------	--------

Dianthus, Old Spice

Rosedale Recommends These Perennial Specialties

We regret that due to the shortage of labor we are obliged to discontinue our complete line of perennials, probably for the duration of the war. However, we offer a few most desirable items which we have in considerable quantity. In addition to the varieties listed we have a number of fine varieties of Hemerocallis and large collection of Peonies. Peonies, however, should not be transplanted until Fall, at which time a special list will be mailed.

CHRYSANTHEMUMS

40c. each, \$4.00 per doz., 2½-inch pot plants—all varieties

CUSHION MUMS

This type makes rounded, low bushes literally covered, from late Summer on, with flowers. Most satisfactory.

Bronze. Deep bronze flowers, turning to bronzy coppery yellow.

Little Bob. Charming, double bronze-red. Develops into symmetrical mound flowering in October.

Pink Major. Bright pink, double. A most delightful shade.

Santa Claus. Bright red, double. Popular variety.

White. Opening delicate pink turning pure white.

Yellow. Pure golden yellow, very brilliant, hundreds of blooms. Early flowering and long lasting.

White Gull. Pure white Pompon type.

DIANTHUS, *Old Spice*

(Plant Patent No. 499)

The finest new perennial introduced in many years, possessing all good qualities you can ask for in a plant. Hardy, neat, cushion-like and compact; long, prolific season and lovely color of rich salmon pink. Beautiful, molded flowers with delightful, spicy fragrance.

12 in. tall.....60c. each, \$5.00 per doz.

HARDY GARDEN

Chrysanthemums

40c. each, \$4.00 per doz.

2½-inch pot plants—all varieties

Algonquin. Showy, double, brilliant yellow.

Autumn Lights. Coppery bronze, semi-double blossoms with a gleaming orange overcast. Compact, branchy plant. Single. 2 ft.

Burgundy. Rich cerise-crimson, deeper amaranth tones in center. Double, sweet-scented. 2½ ft.

No garden is complete without some of these glorious Fall flowering plants. Many of the newer varieties are extremely lovely and bloom early enough so that they avoid early frost. The best sorts only in this collection.

Caliph. For intensity of color, this variety cannot be equaled; color is ox-blood red with rich, velvety sheen. Double. 2½ ft.

Chestnut Burr. Flat double brown. Outstanding, unique type.

Goblin. Glowing bronze, extra hardy Pompon. 2 ft.

Golden Charm. Double golden yellow. Fine.

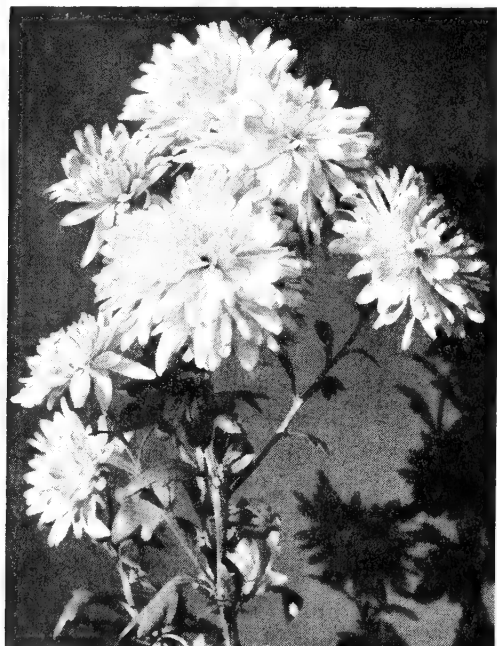

Pygmy Gold. Dwarf Korean Pompon producing quantities of miniature blossoms. Clean golden yellow. 1-1½ ft.

Rose Glow. A Raspberry rose color shading to opalescent rose. Semi-double. 2 in. flowers, cinnamon scented. 2 ft.

Ruth Hatton. Medium size pure white Pompon-like flower.

Ruth Marion Hatton. Midseason. Bright yellow. 2 ft.

Silver Tips. A unique, free flowering variety. Bright carmine double blooms, tips and reverse of petals silvery white.

Ruth Hatton

Chestnut Burr

Caliph

Hardy Climbing VINES AND GROUND COVERS

Vines are often slow to start growth and reluctant to climb. To aid you in establishing a quick vine growth we have preplanted most of the varieties listed below to stimulate quick growth. They are already growing in paper pots and may be planted without a setback. Many will climb 6 to 10 feet the first season.

AMPELOPSIS engelmanni (*Small-leaved Ivy*). A desirable small-leaved Woodbine which clings well and is vigorous in growth. Beautiful Fall coloring.

3 yr. Ea. 75c.

A. quinquefolia (*Virginia Creeper*). Vigorous, handsome Woodbine for Autumnal effects. Recommended for walls and fences.

3 yr. heavy Ea. 75c., per doz. \$7.50

A. tricuspidata lowi (*Dwarf Boston Ivy*). Small, slender edition of Boston Ivy. Leaves are crowded on the shoot giving a twisted effect. Exquisite Fall coloring. For low walls.

2 yr. Ea. \$1.00

A. tricuspidata (veitchii). (*Boston Ivy*). Closely clinging vine with medium sized foliage turning red in Autumn. Its rapid growth and closely clinging habit make it most popular for brick, stone or stucco walls.

2 yr. Ea. 60c., per doz. \$6.00

ARISTOLOCHIA sipho (*Dutchman's Pipe*). Vigorous; huge, heart-shaped leaves. Curious purple, pipe-like flowers.

3 yr., heavy Ea. \$1.00

BIGNONIA radicans (*Trumpet Creeper*). Orange-scarlet, trumpet-shaped flowers in clusters from July to September. Rapid grower but does not flower young. Must be supported.

2 yr. Ea. 60c.

CELASTRUS orbiculatus (*Oriental Bittersweet*). Well known native Bittersweet. Splendid for fences and rocks or will make a shrub. The oriental variety differs from the native only that it bears more berries.

18 to 24 in. Ea. 60c., per doz. \$6.00

C. scandens (*American Bittersweet*).

2 yr. Ea. 60c., per doz. \$6.00

CLEMATIS jackmani (*Purple Clematis*). Large purple single flowers from June to August. Striking.

2 yr. Ea. \$1.00, per doz. \$10.00

C. paniculata (*Old-fashioned Clematis*). The sweet September fragrance of this old favorite indicates its presence long before the flower-laden vine is seen, and the feathery seeds are also decorative. Belongs to the home.

2 yr. Ea. 60c., per doz. \$6.00

EUONYMUS radicans. Self-clinging evergreen vine. Especially good for covering low stone walls and can be used for underplanting of evergreens.

10 to 12 in. Ea. 50c., per doz. \$5.00

E. radicans vegetus (*Evergreen Bittersweet*). Low spreading shrub, but will climb high on masonry walls.

15 to 18 in., light Ea. \$0.75

15 to 18 in. Ea. 1.25

18 to 24 in. Ea. 1.75

HEDERA helix (*English Ivy*). The truly evergreen Ivy which so picturesquely covers many stone buildings. English Ivy will gracefully hang over a wall or may be planted at the base and trained up. A grand ground cover plant in mass under trees or other shady or semi-shady locations.

4 in. pots. Ea. 40c., per doz. \$4.00

H. helix baltica (*Baltic Ivy*). A really hardy evergreen Ivy. Not unlike English Ivy, but has leaves a little smaller with rounded lobes.

3 in. pots. Ea. 35c., per doz. \$3.50

LONICERA japonica halliana (*Honey-suckle*). Semi-evergreen ground cover vine, with fragrant yellow and white flowers. Indispensable for covering banks. Will hold soil in place and permanently cover barren areas.

2 yr. Ea. 35c., \$3.50 per doz., \$25.00 per 100

PACHYSANDRA terminalis (*Japanese Spurge*). Most popular evergreen ground cover plant. Spreads rapidly and gives the finishing touch to a planting of conifers. Grows in shade where grass will not thrive. Use plenty of humus in soil and plant closely. Rooted Cuttings

\$5.00 per 100, \$45.00 per 1000

2½ in. pots. \$12.00 per 100

POLYGONUM auberti (*Chinese Fleecervine*). Slender, vigorous vine for arbor, trellis, or fence. Curious silver-white flowers in tremendous profusion.

2 yr. 6 in. pots. Ea. \$1.00, per doz. \$10.00

SCHIZOPHRAGMA hydrangeoides. (*Climbing Hydrangea*). One of the most artistic vines in existence and extremely rare. Clings well. Foliage large and bold. Flowers in large, flat clusters studded with large, flaky sterile blooms which are showy and fragrant.

3 yr. plants. \$1.50

VINCA minor (*Myrtle*). Dense evergreen ground cover. Small, dark, green leaves on slender trailing branches. Blue flowers in late Spring.

2 yr., field-grown

\$2.50 per doz., \$20.00 per 100

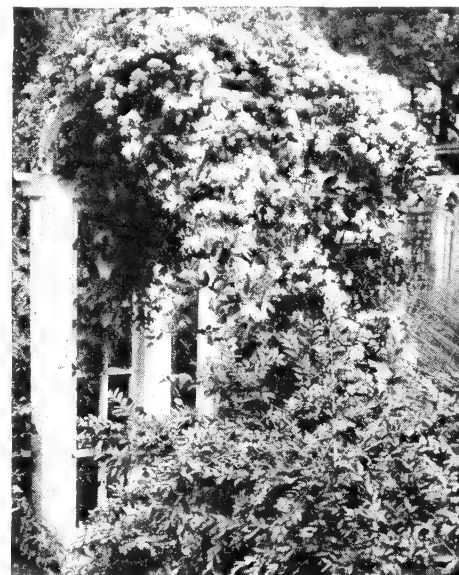

WISTERIA sinensis (*Chinese Wisteria*). Fragrant, lavender flowers in long, drooping clusters. Grafted plants only. The most reliable to bloom.

3 yr. Ea. \$1.00

4 yr. Ea. 1.50

5 yr. Ea. 2.50

XX Heavy. Ea. 5.00

Clematis paniculata

Euonymus

When trees which attain a large size are indicated they are used in the borders or out in the open, not covering the house. Our Landscape Department can help you to avoid costly mistakes

The planting at the left illustrates effective screening by an attractive border planting, combined with plenty of open lawn

The use of large Apple trees close to the house has in this case produced an effect of age and permanence. Little other planting was necessary or desirable. Plantings executed by our staff are individual, practical and in good taste

Rosedale Landscape Service

The development of the home grounds deserves the same careful consideration as the interior and even greater skill is required to satisfactorily develop the exterior. An inexpensive house charmingly and appropriately planted is more satisfactory to the eye than a large, expensive house on a small lot, bare of foliage, except for a few sparse shrubs or cheap, rank-growing evergreens.

We are a long-established Nursery, and we have the finest materials and the skill to plant them as they should be planted. Our landscape service can make your grounds as much an expression of good taste and individuality as are your house and its furnishings. Each place has its own architecture, exposure, and contour. Our service considers these carefully, following the best practices of modern landscape architecture. We plan conscientiously, you need not fear that your place will be overstuffed. We shall be glad to

plan your property for you, incorporating your own ideas where practicable.

Whether the improvements you contemplate are large or small, new planting or the renovation of overgrown or neglected planting, our landscape department will be glad to advise. We will prepare without cost to you a planting plan suggesting sizes and varieties most suitable. These plans are submitted with an estimate of costs and you may then personally select the plants to be used. Hundreds of home owners in Westchester have found this service invaluable and have become our biggest boosters.

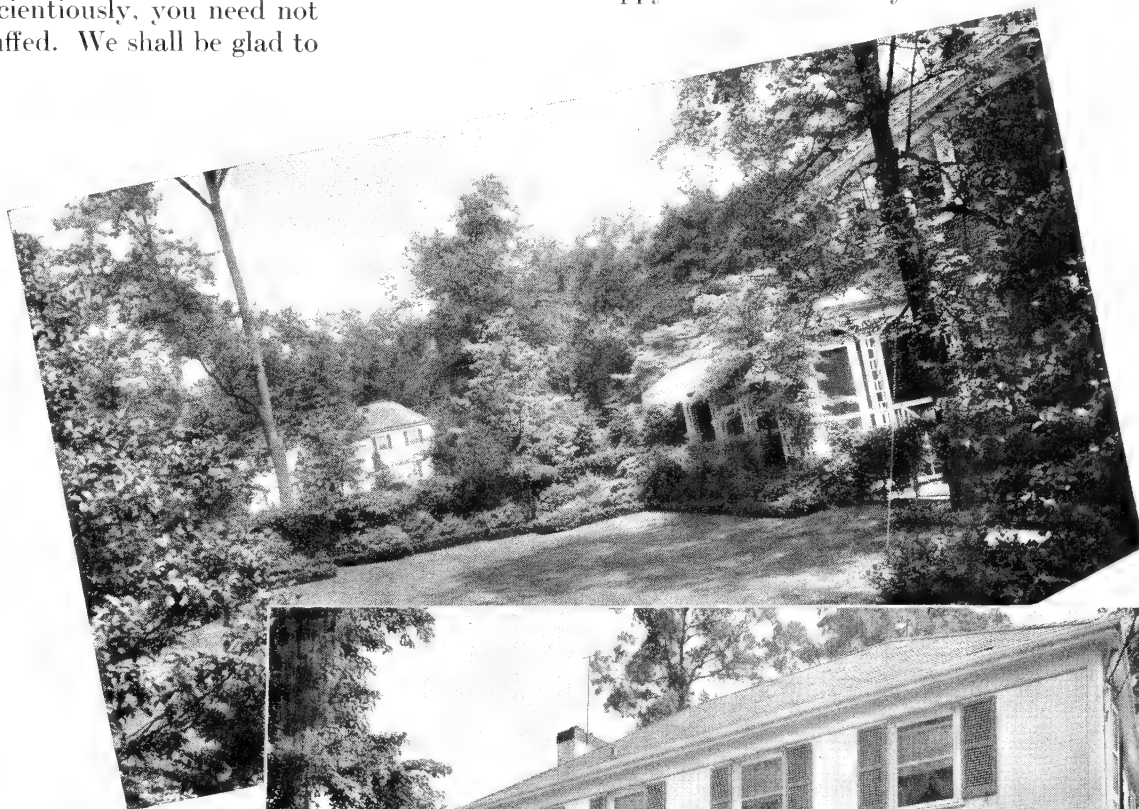

It may not be possible to execute as many plantings as before the War but we can promise as good.

We shall be happy to consult with you.

•

The views shown are typical plantings designed and executed by our staff. The material is carefully selected to insure plants which will not quickly overgrow and yet is of sizes which create an immediate effect that is colorful and pleasing

•

Our designers are mindful of maintenance and careful to use plants which are least troublesome over Winter and which are a joy throughout the year

FLOWERING SHRUBS

Shrubs are all-important in the planting of any grounds. Either in groups, borders, or individual specimens, they are equally beautiful. They are especially effective as a screen or border and marking boundaries where formal hedges are not desired. By careful selection you may have shrubs in blossom throughout the entire growing season. We do not crowd the plants growing in our nursery which allows for the maximum development.

ACANTHOPANAX pentaphyllum (*Aralia pentaphylla*). An attractive, prickly shrub of dense growth. The lovely bright green leaves of tropical appearance make it desirable for a hedge, bank or slope planting. Thrives almost anywhere and will withstand city atmospheric conditions.
5 to 6 ft. \$1.50

ALTHAEA (*Rose of Sharon*). A rather erect and tall-growing shrub of neat form. Blooms in late Summer, beginning in August and lasting usually until heavy frosts. Splendid plants in following varieties.

A. coelestis. Single, blue. An outstanding, newer form of a delightful shade.

2 to 3 ft. \$1.25
3 to 4 ft. 1.50
4 to 5 ft. 2.00

A. Comte de Hairmont. Double pink variety mottled white.
3 to 4 ft. \$1.50
4 to 5 ft. 2.00

A. Double Red. An attractive, deep shade of red. Stronger grower than most named varieties.
3 to 4 ft. \$1.50

A. Double White.
3 to 4 ft. \$1.50

A. totus alba. Finest single white of all.
2 to 3 ft. \$1.25

Korean Barberry

Althaea coelestis

A. Lady Stanley. Double, blush white with pink eye.

3 to 4 ft. \$1.50
5 to 6 ft. 2.50
6 to 8 ft. 5.00

A. Lucy. Double lavender violet.
2 to 3 ft. \$1.25
3 to 4 ft. 1.50

AMELANCHIER canadensis. Small, graceful tree or large shrub of clumpy habit. Snowy flowers in early Spring and maroon fruit in June.

2 to 3 ft. \$1.25
3 to 4 ft. 2.00

AMYGDALUS (*Flowering Almond*). Profusion of deep pink, double rosettes on bare stems in late April and early May. Pink or white.
2 to 3 ft. \$1.00

ARONIA arbutifolia (*Red Chokeberry*). Handsome red Autumn foliage on a shrub of modest growth. Abundance of bright red berries, very attractive to birds. Upright growth.

2 to 3 ft. \$1.00
4 to 5 ft. 2.00
5 to 6 ft. 3.00

A. melanocarpa. This black-fruited form is more bushy and the foliage assumes brighter tints in Autumn. White flowers cover the branches in May. Birds love the berries.
4 to 5 ft. \$1.50
5 to 6 ft. 2.00
6 to 7 ft. 3.50

BENZOIN aestivale (*Spicebush*). Native shrub with fringed yellow flowers in early Spring. Leaves and twigs aromatic.
2 to 3 ft. \$0.75

BERBERIS koreana (*Korean Barberry*). A hardy species from Korea, large blotched leaves and upright, uniform growth. Gorgeous Fall coloring of most brilliant scarlet. Large clusters of red berries.

2 to 3 ft. 75c. each, \$60.00 per 100

B. mentorensis (*Plant Pat. No. 99*). A brand new variety of strong, rugged, upright habit. More beautiful than Japanese Barberry. Able to withstand heat and drought. Foliage darkest green and holds late in Fall. Highly recommended.

15 to 18 in. 75c. each, \$40.00 per 100
18 to 24 in. 90c. each, 50.00 per 100
2 to 2½ ft. \$1.10 each, 70.00 per 100

B. thunbergi (*Japanese Barberry*). Commonly used in hedges. Red berries in the Fall.

15 to 18 in. 35c. each, \$25.00 per 100
18 to 24 in. 50c. each, 35.00 per 100
2 to 2½ ft. 75c. each, 50.00 per 100

FLOWERING SHRUBS—Continued

BERBERIS thunbergi atropurpurea (*Redleaf Japanese Barberry*). Similar to above in growth and form, with purple red leaves all Summer.

12 to 15 in.....	35c. each, \$3.00 per 10
15 to 18 in.....	45c. each, \$4.00 per 10
18 to 24 in.....	60c. each, \$6.00 per 10

BUDDLEIA, Charming (*Butterflybush*). A glorious shrub, bearing throughout the late Summer and Autumn elegant sprays with lavender-pink blooms.

2 yr.....	90c.
-----------	------

B. Dubonnet. A glorious color—a counterpart of the popular French wine, Dubonnet. Glow a true red. Erect, strong-stemmed.

2 yr.....	90c.
-----------	------

B. Ile de France. Fragrant, brilliant rosy purple flowers, suffused violet. Profuse bloomer. Large flower spikes.

2 yr.....	90c.
-----------	------

B. Royal Red (*Plant Pat. 556*). The first truly red Butterflybush. Fragrant and fine for cutting. Medium growth.

Each.....	90c.
-----------	------

B. White Bouquet (*New White Butterflybush*). Long, lovely, fragrant, glistening white sprays like White Lilacs all Summer and Fall, on graceful, medium-sized bush that seldom exceeds 5 to 6 ft. in height. Sweetly fragrant and attractive to butterflies. This is something distinctly different in Buddleias and is a definite contribution to Horticulture. You will want several in your garden this year. Long lasting cut flowers for the house and just as beautiful in the garden.

Each.....	90c.
-----------	------

CALLICARPA purpurea (*Beautyberry*). An attractive shrub, growing about 3 to 4 ft. tall, bearing an abundance of small, pink flowers in August, followed by innumerable glittering, lavender blue berries in dense clusters along the branches.

2 yr.....	\$1.00
-----------	--------

CALYCANTHUS floridus (*Sweet Shrub*). An old-fashioned shrub with chocolate colored blossoms. Leaves and bark have a spicy fragrance. A splendid bush.

2 to 3 ft.....	\$0.75
3 to 4 ft.....	1.25

Deutzia crenata rosea

CORNUS sanguinea (*Bloodtwig Dogwood*). Stems dark blood-red to purple, bearing white flowers in May and June. Followed by black fruit.

2 to 3 ft.....	\$0.75
3 to 4 ft.....	1.00

C. stolonifera lutea (*Yellow-twigged Dogwood*). Yellow branches which make a striking contrast to the blood red twigs of *C. sibirica*.

Heavy clumps.....	\$10.00
-------------------	---------

CYDONIA japonica (*Flowering Quince*). Early blooming shrub with shiny green foliage and deep crimson flowers.

18 to 24 in.....	\$0.75
2 to 3 ft.....	1.00
3 to 4 ft.....	1.50

C. japonica, Shell Pink.

18 to 24 in.....	\$1.75
------------------	--------

C. superba coralina. An excellent pink flowering variety of Japanese Quince which is much admired.

18 to 24 in.....	\$1.75
2 to 3 ft.....	2.50

DAPHNE mezereum. Small, rosy purple flowers clothe the upright branches in early March. Exceedingly decorative small shrub. Fragrant.

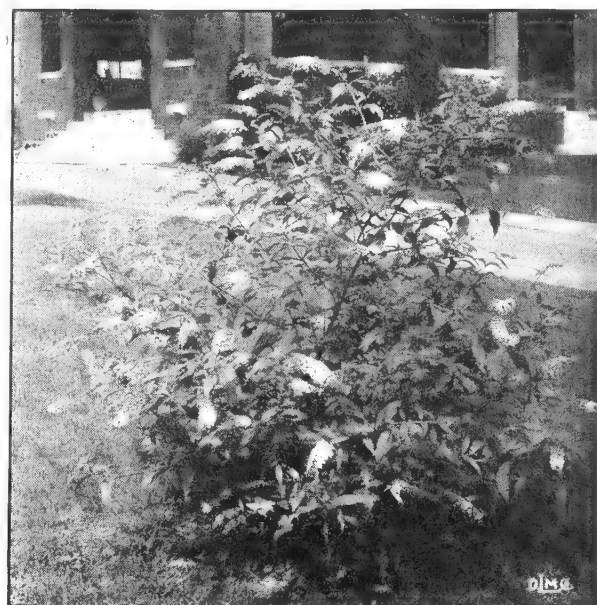

18 to 24 in.....	\$2.50
2 to 2½ ft.....	3.50

DEUTZIA gracilis (*Slender Deutzia*). A dwarf variety with small, white flowers that completely cover it in May.

12 to 15 in.....	\$0.60
18 to 24 in.....	1.00

D. gracilis rosea (*Rose-panicked Deutzia*). Pink form of *D. gracilis*.

15 to 18 in.....	\$0.75
------------------	--------

Buddleia Ile de France

CLETHRA alnifolia (*Sweet Pepperbush*). An upright, slow-growing shrub with spikes of fragrant white flowers in late Summer. Fine for naturalizing.

2 to 3 ft.....	\$1.00
3 to 4 ft.....	1.50
4 to 5 ft.....	2.00

CORNUS alba sibirica (*Redtwigged Dogwood*). Quick growing shrub, bearing white flowers in July. Handsome red twigs, very decorative in Winter.

4 to 5 ft.....	\$2.50
5 to 6 ft.....	4.00

C. mas (*Cornelian Cherry*). Generally first shrub to show color in Spring when twiggy branches are covered in a yellow mist that gradually becomes brighter. Cherry-like fruit.

4 to 5 ft.....	\$2.50
5 to 6 ft.....	3.50

Calycanthus floridus

FLOWERING SHRUBS—Continued

DEUTZIA lemoinei (*Lemoine Deutzia*). Slightly larger shrub than *Deutzia gracilis*, with pure white flowers. 15 to 18 in.\$0.60

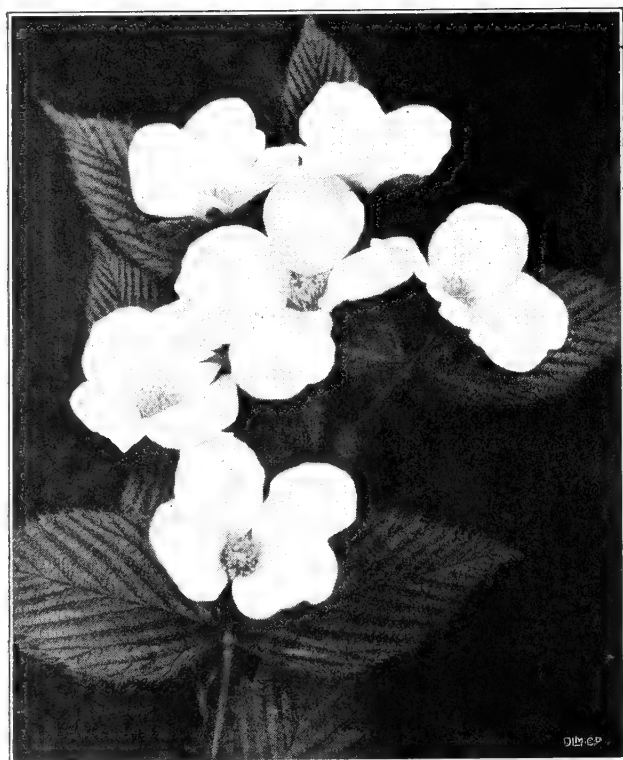

D. scabra crenata rosea. Upright, quick growing shrub of neat habit. Real pink blooms in late May. 3 to 4 ft.\$1.00
5 to 6 ft.\$2.50

D. scabra, Pride of Rochester. White flowers borne in July in great profusion. A handsome shrub of vigorous habit. Attains about 8 ft. in height. 2 to 3 ft.\$0.60
3 to 4 ft.1.00
4 to 5 ft.1.50

ELAEAGNUS angustifolia (*Russian-olive*). An exceedingly ornamental shrub with gray leaves and orange berries in Autumn. 2 to 3 ft.\$1.00

Philadelphus

Rhodotypos kerrioides

Hydrangea Peegee

ENKIANTHUS campanulatus (*Redvein Enkianthus*). Without artificial shaping, will develop into a handsome, large shrub, well clothed with clean foliage which turns brilliant red in Fall. Bunches of nodding flowers are borne on the whorled branches and these red-veined white cups are quite unlike any other flower.

2 to 3 ft.\$4.00
3 to 4 ft.6.00
4 to 5 ft.7.50

EUONYMUS alatus (*Corkbark Euonymus*). Particularly striking shrub, especially in Autumn and Winter, with corky wings and scarlet Fall foliage and berries. Blooms white.

2 to 3 ft.\$1.50
3 to 4 ft.2.25
4 to 5 ft.3.50

E. alatus compacta. Just as beautiful and much neater and slower in growth than the original. A grand specimen or may be used in foundation planting.

3 to 4 ft.\$4.00
4 to 5 ft.6.00

FORSYTHIA spectabilis (*Showy Border Forsythia*). By far the best of the Forsythias in color, size of flower and profusion of bloom.

2 to 3 ft.\$0.75
3 to 4 ft.1.00
4 to 5 ft.1.50

HALESIA tetraptera (*Silver Bell*). A slender shrub, attaining a height of 12 ft. The flowers resemble small silver bells. Bloom in May.

3 to 4 ft.\$1.00
4 to 5 ft.2.00
5 to 6 ft.4.00
6 to 7 ft.6.00
7 to 8 ft.7.50

HAMAMELIS virginiana (*Witch-hazel*). Irregular spreading shrub, with large, oval leaves. Blooms with small yellow flowers close to stem in November. Thrives on deep shade or full sun.

3 to 4 ft.\$1.00
4 to 5 ft.1.50
5 to 6 ft.2.50

HYDRANGEA arborescens (*Summer Hydrangea*). Large, pure white blooms in July and August.

2 to 3 ft.\$0.75
3 to 4 ft.1.00

H. paniculata grandiflora (*Peegee Hydrangea*). The best known Hydrangea with immense, conical, pink and white blooms from July to September.

2 to 3 ft.\$0.75
3 to 4 ft.1.00
4 to 5 ft.1.50

HYPERICUM densiflorum. A slightly larger form than the above, with bright yellow flowers from July to September.

2 to 3 ft.\$1.00

FLOWERING SHRUBS—Continued

ILEX verticillata (*Winterberry*). Berrying plants. A fine, native shrub, carrying its bright red berries practically all Winter. Upright habit with black bark and clean, attractive foliage. Plant in groups to insure production of berries.

3 to 4 ft.	\$1.00
4 to 5 ft.	1.75
5 to 6 ft.	2.50

KOLKWITZIA amabilis (*Beautybush*). A new shrub with slim, arching branches covered with pink flowers in June. We highly recommend it.

2 to 3 ft.	\$1.00
3 to 4 ft.	1.50

LIGUSTRUM ibota (*Ibota Privet*). Graceful, arching branches with small, white flowers in clusters. Makes a splendid informal hedge. Exceptionally hardy.

2 to 3 ft.	\$0.50
3 to 4 ft.	.85
4 to 5 ft.	1.50
5 to 6 ft.	2.50

L. ovalifolium (*California Privet*). The form most commonly used for hedges.

2 to 3 ft.	\$1.75 per doz., \$16.00 per 100
3 to 4 ft.	\$2.00 per doz., \$22.50 per 100

L. regelianum (*Regel Privet*). A low spreading form, almost horizontal.

3 to 4 ft.	\$1.00
4 to 5 ft.	1.50

LONICERA fragrantissima (*Winter Honeysuckle*). An almost evergreen shrub, with glossy foliage retained most of the Winter. Small, fragrant, white flowers.

2 to 3 ft.	\$0.75
3 to 4 ft.	1.00
4 to 5 ft.	2.50
5 to 6 ft.	4.00

L. ruprechtiana (*Manchurian Honeysuckle*). Dense, upright shrub with cream white flowers in June. Red and orange berries.

4 to 5 ft., heavy	\$1.50
-------------------	--------

LONICERA tatarica (*Upright Honeysuckle*). Finest in habit of Bush Honeysuckles. A rapid grower, attaining 10 to 12 ft. in height. May be had in either Pink or White-flowering varieties.

2 to 3 ft.	\$0.75
3 to 4 ft.	1.00
4 to 5 ft.	1.50

PHILADELPHUS coronarius (*Sweet Mockorange*). Extremely fragrant variety of Mockorange. Blooms white in May and June.

2 to 3 ft.	\$0.75
3 to 4 ft.	1.00
4 to 5 ft.	1.50

P. lemoinei (*Dwarf Mockorange*). This neat, compact shrub needs little pruning and will stay indefinitely in scale. Blooms profusely with sweet fragrance.

18 to 24 in.	\$0.75
--------------	--------

P. virginal (*Double Mockorange*). Fine, double-flowering variety, which blooms profusely.

2 to 3 ft.	\$0.75
3 to 4 ft.	1.00
4 to 5 ft.	1.50

PHOTINIA villosa (*Redberried Photinia*). Toothed leaves, 2 to 3 in. long, scarlet to deep red in Fall. Flowers white, in broad clusters. Berries scarlet, remaining until Midwinter.

3 to 4 ft.	\$1.00
4 to 5 ft.	1.50
5 to 6 ft.	2.50
6 to 7 ft.	3.50

RHODOTYPOS kerrioides (*Jetbead*). Small, shapely shrub, bearing white flowers and black berries. Foliage handsome. Good for shade.

2 to 3 ft.	\$0.85
3 to 4 ft.	1.00

SALIX caprea (*Pussy Willow*). Desirable for early Spring effects and will do well in dry locations as well as wet.

2 to 3 ft.	\$0.75
------------	--------

SPIRAEA, Anthony Waterer (*Dwarf Spirea*). A small, compact shrub with pink flowers in July:

18 to 24 in.	\$0.75
2 to 2½ ft.	1.00

Spiraea Anthony Waterer

Spiraea prunifolia

Coralberry

FLOWERING SHRUBS—

Continued

SPIRAEA prunifolia (True *Bridalwreath*). Long racemes of pure white flowers in May. Small, glossy foliage.

2 to 3 ft. \$0.75
3 to 4 ft. 1.00
4 to 5 ft. 1.50

S. thunbergi (*Thunberg Spirea*). Semi-dwarf sort with very fine foliage and small white flowers. Dense.

18 to 24 in. \$0.75
2 to 3 ft. 1.00

S. vanhouttei. Ever popular variety, producing an abundance of small white flowers in clusters.

2 to 3 ft. \$0.50
3 to 4 ft.75
4 to 5 ft. 1.50

STEPHANANDRA flexuosa. (*Lace Shrub*). Splendid shrub of erect habit, with cut foliage. Striking at all seasons.

3 to 4 ft. \$1.50

SYMPHORICARPOS racemosus (*Snowberry*). Pink flowers and white berries in profusion. Thrives in shade and is excellent for hillside.

2 to 3 ft. \$0.75
3 to 4 ft. 1.00

S. vulgaris (*Coralberry*). Bears clusters of small red berries which remain most of the Winter.

2 to 3 ft. \$0.75
3 to 4 ft. 1.00

Persian Lilac

SYMPLOCOS paniculata (*Turquoise Berry*). The conspicuous white flowers on a broad, thickly branched shrub, are followed by a profusion of beautiful turquoise berries in Autumn.

3 to 4 ft. \$1.25
4 to 5 ft. 2.50

FRENCH HYBRID LILACS

Almost everybody knows and loves the old-fashioned purple Lilac, but only a few know how exquisitely lovely the French Hybrids are. They are just as easy to grow, and bloom when they are even younger. The flowers are relatively huge and are borne in enormous clusters, sometimes six or seven clusters combined in one great truss. Here is a list of favorite varieties which are so exquisitely lovely and different that you will want them all in the border as specimens.

2 to 3 ft. \$1.50
3 to 4 ft. 2.50
Some specimens in different colors.

4 to 5 ft. \$4.00
5 to 6 ft. 6.00
8 to 12 ft. \$10.00 to \$25.00

FRENCH HYBRID LILAC VARIETIES

Belle de Nancy. Double satiny rose. 2 to 3 ft., 3 to 4 ft., 4 to 5 ft.

Charles X. Single, rich purple red. 2 to 3 ft., 3 to 4 ft.

Ellen Willmott. Large, double, white. 2 to 3 ft., 4 to 5 ft.

Jan Van Tol. Pure white, single flowers. 3 to 4 ft., 4 to 5 ft.

Katherine Havemeyer. Double, mauve. 3 to 4 ft., 4 to 5 ft.

Marie Le Graye. Single, white. 2 to 3 ft., 3 to 4 ft., 4 to 5 ft.

Mme. Casimir Perier. Double, creamy white. 2 to 3 ft., 3 to 4 ft.

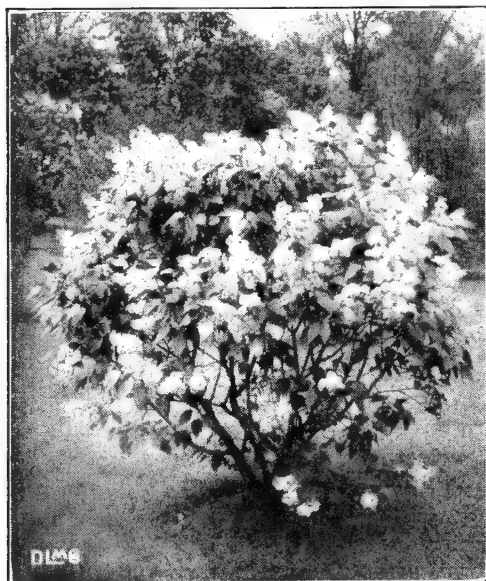

Mme. Lemoine. Double, white. 2 to 3 ft., 3 to 4 ft., 4 to 5 ft., 5 to 6 ft., 6 to 7 ft.

President Grevy. Double, blue. 2 to 3 ft., 3 to 4 ft., 4 to 5 ft., 5 to 6 ft., 6 to 7 ft.

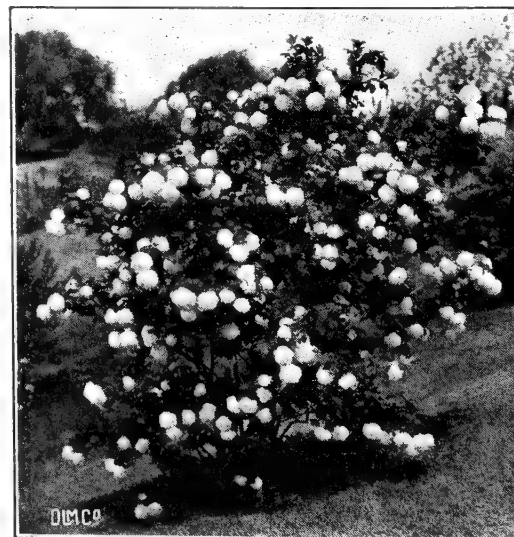

President Viger. Double, lavender. 3 to 4 ft., 4 to 5 ft.

Souv. de Ludwig Spaeth. Single, reddish purple. 2 to 3 ft., 3 to 4 ft., 4 to 5 ft.

Wm. C. Robinson. Double, mauve pink. 3 to 4 ft.

Hybrid Lilac

Viburnum plicatum

FLOWERING SHRUBS—Continued

OTHER
FINE LILACS

SYRINGA (*Lilac*). Our stock of these favorite flowering plants is very complete in both common and French Hybrid varieties. We have a quantity of plants much larger than are listed here and will be pleased to receive your inquiries or a personal inspection.

S. persica (*Persian Lilac*). A graceful shrub with slender branches and single, pale lilac flowers.
3 to 4 ft. \$1.00 | 4 to 5 ft. \$1.50
5 to 6 ft. \$2.50

S. reflexa. Late Spring flowering variety with pink flowers.
7 to 8 ft. \$10.00 | 8 to 10 ft. \$15.00

S. vulgaris (*Common Purple Lilac*). Considered by many as fine as any hybrid. Bears large clusters of fragrant purple flowers in May.
2 to 3 ft. \$1.00 | 4 to 5 ft. \$2.50
3 to 4 ft. 1.50 | 5 to 6 ft. 4.00

S. vulgaris alba (*Common White Lilac*). Fragrant single white flowers.
2 to 3 ft. \$1.00 | 3 to 4 ft. \$1.50
4 to 5 ft. \$2.50

VIBURNUMS. The Viburnums probably comprise more desirable varieties for landscape use than any other family of shrubs.

V. acerifolium (*Maple-leaved Viburnum*). A grand shrub for naturalizing and woodland planting. Brilliant Fall coloring and abundance of blue berries for the birds.
2 to 3 ft. \$0.75

V. carlesii (*Fragrant Viburnum*). Most fragrant of all flowering shrubs. A blossom of this delightful shrub will scent an entire room. Fairly dwarf and slow in growth it eventually attains 5 to 6 ft. in height. Blooms are creamy white and borne in considerable profusion. Very scarce.
15 to 18 in. \$2.50 | 18 to 24 in. \$3.50
2 to 2½ ft. \$4.50

V. cassinoides (*Witherod*). Color starts in June with the large clusters of white flowers, preceding green berries which in turn change to pink and finally blue black. Leathery leaves add their touch of crimson and purple in Fall. Prefers a moist spot. An exceptionally clean and neat shrub.

2 to 3 ft. \$1.00 | 3 to 4 ft. \$1.50
4 to 5 ft. \$2.00

V. dentatum (*Arrowwood*). Bushy shrub with white flowers and blue berries. Fine for shade.
2 to 3 ft. \$0.75 | 3 to 4 ft. \$1.00
4 to 5 ft. \$1.50

V. dilatatum (*Linden Viburnum*). Finest of the Viburnums. White flowers followed by immense clusters of bright red berries which turn the entire shrub red.

2 to 3 ft. \$1.00 | 4 to 5 ft. \$2.50
3 to 4 ft. 1.25 | 5 to 6 ft. 3.50

V. lentago (*Nannyberry*). White flowers and bluish black berries which persist nearly all Winter. Large shrub with glossy leaves which turn purplish crimson in Autumn.
3 to 4 ft. \$1.50 | 4 to 5 ft. \$2.50
5 to 6 ft. \$3.50

V. opulus (*Highbush Cranberry*). White flowers, followed by Cranberry-like fruit which persists all Winter. Rapid grower.
3 to 4 ft. \$1.00 | 4 to 5 ft. \$1.50

V. prunifolium. The small leaved turn brilliant purple in Fall. Pure white flowers in May are followed by pink berries which turn to black in late Autumn.
3 to 4 ft. \$1.50 | 4 to 5 ft. \$2.50
5 to 6 ft. \$3.50

V. sieboldi. Vigorous growing shrub, attaining great size. Berries pink, changing to black. Large, deep green, leathery leaves.
3 to 4 ft. \$1.00 | 4 to 5 ft. \$1.50

V. theiferum. Large compound white flowers followed by huge clusters of brilliant scarlet berries. Probably the most showy of all Viburnums when in berry.
2 to 3 ft. \$1.00 | 3 to 4 ft. \$1.50

V. tomentosum (*Single Japanese Snowball*). Single white flowers in profusion, followed by red berries. Foliage red in Fall.

2 to 3 ft. \$0.75
3 to 4 ft. 1.00
4 to 5 ft. 1.50

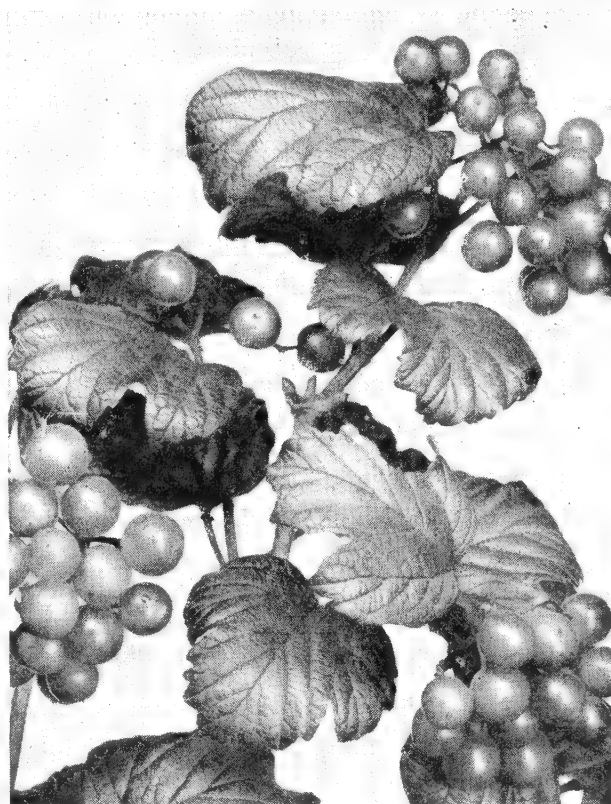

V. tomentosum plicatum. Double ball-shaped flowers of pure white; heavy dark foliage; medium growth
2 to 3 ft. \$1.50

WEIGELA, Bristol Ruby (New)—(Improved Eva Rathke). Bristol Ruby is a better Eva Rathke. Hardier and more vigorous, developing to a shapely shrub. Color is a soft ruby red shading to garnet crimson. Sorry—not available this Spring.

W. Eva Rathke. Slower growing than other Weigelas but the finest of all. Dark crimson flowers in extraordinary profusion.
2 to 3 ft. \$1.00

Viburnum sieboldi

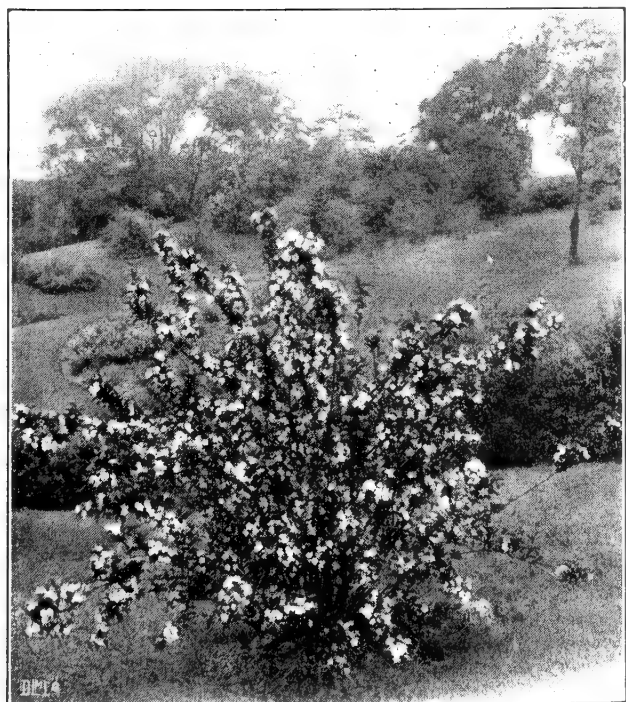

Viburnum opulus

W. floribunda. Extremely vigorous in growth, bright crimson flowers
2 to 3 ft. \$0.75
3 to 4 ft. 1.00
4 to 5 ft. \$1.50

W. rosea. Medium growth with beautiful rose-colored flowers in June.
2 to 3 ft. \$0.75
3 to 4 ft. 1.00
4 to 5 ft. 1.50
5 to 6 ft. 2.00

VITEX macrophylla. A graceful shrub with attractive spikes of lovely lavender blue flowers. Blooms profusely from July to frost. Dies back in Winter, similar to Buddleia.
2 to 3 ft. \$0.75

Weigela rosea

Shade Trees

The soil at Rosedale insures good root systems which in turn insures well developed shade trees. They are well spaced in rows at our nursery to allow for proper development of top. We grow only varieties which will succeed in existing climatic conditions in this territory. You will find in our list varieties for almost every purpose.

ACER - Maple

The Maples are universally popular. They are regular in outline, vigorous growers, beautiful in foliage, and adapt themselves to almost any soil. The Norway Maple is especially desirable for street planting and thrives well near the sea.

Palmatum atropurpureum (*Redleaved Japanese Maple*). A comparatively dwarf Maple, slow in growth and attaining ultimately about 20 ft. in height. Bright red foliage and branches. These are well shaped.

18 to 24 in.	\$3.75
2 to 2½ ft.	5.00
2½ to 3 ft.	7.50
4 to 5 ft.	15.00
5 to 6 ft.	18.00
6 to 8 ft.	25.00

Palmatum dissectum (*Cutleaf Japanese Maple*). Very dwarf form with finely cut purple red leaves. Very graceful and a real treasure when fully developed.

18 to 24 in.	\$5.00
2 to 2½ ft.	7.50
2½ to 3 ft.	9.00
3 to 4 ft.	12.00

Platanoides (*Norway Maple*). Foremost of the Maples because of its regular outline, widespreading branches, and deep green foliage which is retained after the first heavy frosts.

1¾ to 2 in. cal.	\$6.00
2 to 2½ in. cal.	9.00
2½ to 3 in. cal.	12.00
3 to 3½ in. cal.	16.00
3½ to 4 in. cal.	22.50
4 to 5 in. cal. B&B.	40.00

Larger sizes priced on application

Saccharum (*Sugar Maple*). A beautiful tree of upright form. Attains a greater height than the Norway Maple and colors yellow and red in Fall.

2 to 2½ in. cal.	\$12.00
2½ to 3 in. cal.	16.00
3 to 3½ in. cal.	22.50
3½ to 4 in. cal.	30.00

BETULA - Birch

Alba (*European White Birch*). Very graceful habit and creamy white bark even in the young trees.

8 to 10 ft.	\$5.00
10 to 12 ft.	7.50
12 to 14 ft.	15.00

BETULA—Continued

Populifolia (*Gray or Silver Birch*). Generally in clumps of two or more white trunks rising gracefully from the ground. The small leaves quiver at the slightest breeze.

8 to 10 ft.	\$7.50
10 to 12 ft.	\$12.00
12 to 14 ft.	20.00

FAGUS - Beech

Americana (*American Beech*). Grows slowly, but a handsome native, whose clean, gray-barked trunks are familiar in light woods. Prefers well-drained soil and Spring planting.

5 to 6 ft.	\$8.00
6 to 7 ft.	10.00
7 to 8 ft.	15.00
8 to 10 ft.	20.00
10 to 12 ft.	27.50
12 to 14 ft.	40.00

Sylvatica (*European Beech*). For screen or hedge, this Beech is ideal among deciduous trees. It gives nearly as much screen in Winter as in Summer, owing to the fact that the dead leaves persist in Winter. As it bears the shears well, it may be kept within bounds for hedge purposes and grows as dense as any hedge.

5 to 6 ft.	\$8.50
7 to 8 ft.	15.00
8 to 10 ft.	20.00
10 to 12 ft.	27.50
14 to 16 ft.	50.00

Sylvatica riversi (*Rivers Purple Beech*). This tree is similar to the European Beech except for its beautiful purple foliage. Handsome and dignified.

6 to 7 ft.	\$12.00
7 to 9 ft.	\$20.00
9 to 12 ft.	\$25.00

GLEDITSIA

Gleditsia inermis (*Thornless Honeylocust*). This is a truly lovely tree. Its towering, spreading canopy of lace-like foliage is the epitome of light and airy grace. Freedom from insect pests is only one of its outstanding characteristics. Not entirely free from thorns but many less than the older form. Triacanthos. Hardy and long lived. This tree is the answer to problem of planting something different in a shade tree.

8 to 10 ft.	\$6.00
10 to 12 ft., 1½ to 2 in. cal.	9.00
2 to 2½ in. cal.	12.00

White Birch

LIQUIDAMBAR

Styraciflua (*Sweet Gum*). A most interesting and satisfactory shade tree. It likes moisture and grows to immense size. The star-shaped leaves are blazing scarlet in Autumn. Very resistant to insects.

2 to 2½ in. cal., B&B.	\$15.00
2½ to 3 in. cal., B&B.	20.00

Cutleaf Japanese Maple

Norway Maples in the Nursery

SHADE TREES—Continued

PLATANUS

Platanus occidentalis (*American Plane*). This grand native American tree is sometimes called Buttonball or Sycamore. It attains great size and spread with open-branching and as soon as it reaches a little age will reveal attractive white bark. Leaves are large and the shade provided is light and airy. We recommend it highly for a rapid growing shade tree in well drained soil.
2 to 2½ in. cal...\$10.00 | 2½ to 3 in. cal...\$15.00 | 3 to 3½ in. cal...\$20.00

POPULUS - Poplar

Nigra italica (*Lombardy Poplar*). Rapid growing, narrow, upright tree, useful for screening, hedgerows and windbreaks. 10 to 12 ft.\$2.50

QUERCUS - Oak

The Oaks, especially when they attain size, are the most picturesque of all trees, symbolizing strength and durability. Their reputation as slow growers is not warranted, for, when once established, they will make a yearly growth equal to that of almost any other species.

Palustris (*Pin Oak*). A superb and distinct tree. The Pin Oak's graceful, drooping branches support a mass of deeply lobed, sharply pointed leaves, changing to deep red in Autumn. Jack Frost has never shown greater skill than in the coloring he produces in Pin and Scarlet Oaks.

1½ to 2 in. cal...\$8.00 | 3 to 3½ in. cal...\$27.50 | 4 to 4½ in. cal...\$55.00
2½ to 3 in. cal... 17.50 | 3½ to 4 in. cal... 40.00 | 4½ to 5 in. cal... 75.00

Rubra (*Red Oak*). A fine, all-round tree with wide spreading branches. Colorful Fall foliage remains on all Winter.

1½ to 2 in. cal...\$8.00

Rivers Purple Beech

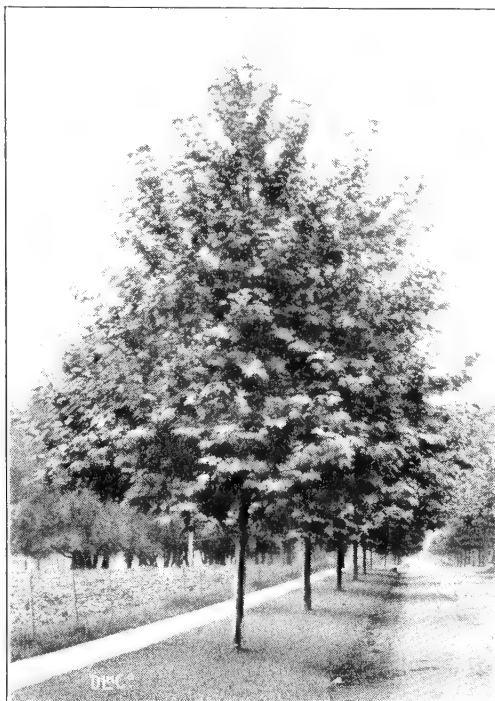

SALIX - Willow

Babylonica (*Weeping Willow*). Long, stringy branches droop vertically to the ground, and with the narrow, light green leaves, create a soft, velvety texture. Grows rapidly especially when close to water.

6 to 8 ft.\$2.50
1½ in. cal... 4.00
2 to 2½ in. cal... 7.50
2½ to 3 in. cal...12.00
3 to 3½ in. cal...17.50

Niobe (*Golden Twig Weeping Willow*).

6 to 8 ft.\$2.50
1½ in. cal... 3.50
1¾ to 2 in. cal... 5.00
2 to 2½ in. cal... 9.00
2½ to 3 in. cal...15.00

American Plane

TILIA - Linden

Americana (*American Linden*). Especially noted for its great vigor, large, heart-shaped leaves, and very fragrant flowers in June. No flowers produce so delicious a honey as those of the American Linden.
3 to 4 in. cal...\$15.00 | 4 to 5 in. cal...\$20.00
5 to 5½ in. cal...\$25.00

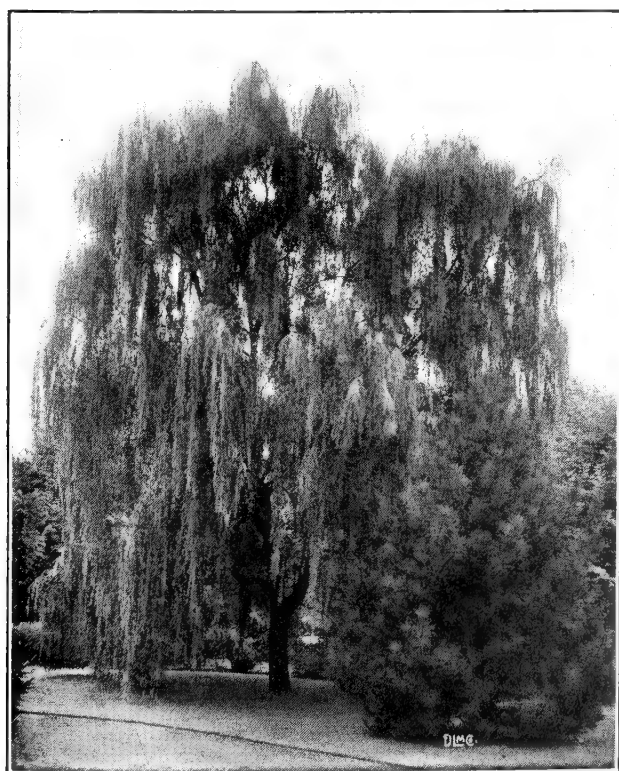

Tomentosum (*Silver Linden*). Few trees could be more handsome than this striking species. The heart-shaped leaves are green above and silvery white beneath. Grows into a compact specimen, in June surrounded by bees gathering honey from the sweetly fragrant, greenish-yellow flowers. Resistant to beetle injury and altogether a most satisfactory tree.
2 to 2½ in. cal...\$15.00 | 2½ to 3 in. cal...\$18.00

Vulgaris (*European Linden*). Generally conceded the best form for street planting as the dark green leaves remain good until late Autumn. The compact, low-branched head is particularly fitted to lawn purposes where the branches make a natural canopy. Fragrant flowers in June.
2 to 2½ in. cal...\$10.00 | 2½ to 3 in. cal...\$15.00

ULMUS - Elm

Americana (*American Elm*). As the Oak is pre-eminent in dignity and majesty, the Elm is pre-eminent in grace and elegance. The graceful, umbrella-shaped top, borne high above the other trees, always adds to the landscape picture. It is not particular as to soil and makes a delightful shade as it does not branch low, thus allowing the breezes free play.
2 to 2½ in. cal...\$7.50
2½ to 3 in. cal...10.00
3 to 3½ in. cal...18.00
3½ to 4 in. cal...25.00
4 to 5 in. cal...45.00
5 to 6 in. cal...65.00

Pumila (*Asiatic Elm*). Familiar fast growing, small-leaved tree whose symmetrical form probably provides the quickest shade of all the trees listed here. Not particular as to soil conditions. Ideal for quick shade at low cost.
1½ to 2 in. cal...\$4.00
2 to 2½ in. cal... 7.50

Weeping Willow

Pin Oak

We call particular attention to our stock of Dogwoods, Hawthorns, and Magnolias. We offer a wide range of sizes attractively priced and are proud of this stock. Your satisfaction is assured.

CERCIS

Canadensis (*Red Bud*). A desirable ornamental specimen with large, heart-shaped leaves and bright pink flowers arriving before the foliage appears. May be used in the shrub border.

5 to 6 ft.....	\$5.00
6 to 8 ft.....	7.50

Hawthorn (See page 27)

Flowering TREES

Flowering Trees are an investment in ever increasing beauty. They may be used effectively in the border, as lawn specimens, in conjunction with evergreens or as espaliers against bare wall surfaces. We have selected the varieties listed below with great care to insure complete satisfaction. They are all hardy, of pleasing colors and most varieties have extremely ornamental fruit.

CORNUS - Dogwood

Florida (*White Dogwood*). A native flowering tree attaining about 20 ft. in height at maturity and producing a wealth of single white flowers before the leaves appear. The foliage is deep green turning a brilliant red in Autumn.

5 to 6 ft.....	\$6.00
6 to 7 ft.....	7.50
7 to 8 ft.....	9.00
8 to 10 ft.....	12.00
10 to 12 ft.....	15.00
12 to 14 ft.....	20.00
14 to 16 ft.....	35.00

Florida rubra (*Pink or Red Dogwood*). Similar to our native White Dogwood in habit and form but with masses of pink flowers.

3 to 4 ft.....	\$5.00
4 to 5 ft.....	7.50
5 to 6 ft.....	9.00
6 to 7 ft.....	14.00
7 to 8 ft.....	17.50
8 to 9 ft.....	20.00

Kousa (*Kousa Dogwood*). White flowers borne after the leaves come out. Large, Strawberry-like crimson fruit.

5 to 6 ft.....	\$6.00
6 to 7 ft.....	10.00
7 to 8 ft.....	12.00
8 to 10 ft.....	15.00
10 to 12 ft.....	18.00

Cercis (Red Bud)

FLOWERING TREES—Continued

CRATAEGUS - Hawthorn

Cordata (*Washington Thorn*). Lovely single white flowers in May, followed by a profusion of red berries and colorful foliage in Autumn.

4 to 5 ft.....	\$3.75	6 to 7 ft.....	\$7.50
5 to 6 ft.....	5.00	10 to 12 ft.....	12.00

Crusgalli (*Cockspur Thorn*). Single white flowers and showy orange fruit. Its dark, shiny green leaves persist until late Autumn then turn brilliant orange.

7 to 8 ft.....	\$9.00	8 to 10 ft.....	\$12.00
----------------	--------	-----------------	---------

Magnolia stellata

MAGNOLIA

Soulangiana (*Saucer Magnolia*). Small, broad tree. Flowers large, cup-shaped, purplish outside, white at top, appear in early May before the leaves.

2 to 3 ft.....	\$4.50
3 to 4 ft.....	5.50
4 to 5 ft.....	9.00
5 to 6 ft.....	12.00
6 to 7 ft.....	15.00
7 to 8 ft.....	17.50

Soulangiana lennei. An outstanding variety with very handsome, big, leathery leaves. Late blooms of deep purple white inside.

2 to 3 ft.....	\$6.00
3 to 4 ft.....	7.50
4 to 5 ft.....	10.00
5 to 6 ft.....	15.00

Stellata (*Star Magnolia*). Small, broad, rounding habit, star-shaped flowers of pure dazzling white. Hardiest and finest of all.

18 to 24 in.....	\$6.00
2 to 3 ft.....	7.50
3 to 4 ft.....	12.00

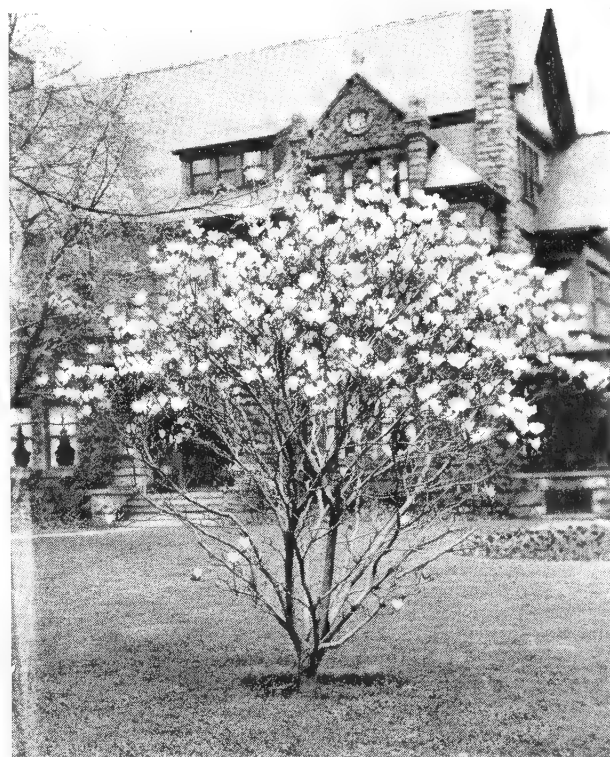

Nigra (*Purple Magnolia*). Similar to Lennai with huge purple petals. 6 to 7 ft. heavy specimens. \$20.00

Oxyacantha (*Hawthorn*). Double Pink, Double White and Double Red. Three different colors of English Hawthorn, which are exceptionally well grown. They have straight trunks, headed 4 ft. up from the ground and nicely branched.

5 to 6 ft....	\$4.50
6 to 7 ft....	6.00
7 to 8 ft....	9.00

Oxyacantha splendens (*Paul's Scarlet Thorn*). Double scarlet flowers. Late Spring bloomer. One of the finest.

4 to 5 ft....	\$3.50
5 to 6 ft....	5.00

Magnolia soulangeana

LABURNUM

Vossi (*Golden Chain*). Large, pendant golden flowers hang from the twigs like Wisteria. Appears to be more hardy than Laburnum vulgare.

5 to 6 ft.....	\$4.00	7 to 8 ft.....	\$6.00
----------------	--------	----------------	--------

OXYDENDRUM

Arboreum (*Sorrel Tree*). A comparatively dwarf tree bearing an abundance of white flowers in Midsummer. The foliage turns several shades of red and crimson in Fall. Seldom seen in the Fall without being admired.

3 to 4 ft.....	\$2.50	5 to 6 ft.....	\$5.00	7 to 8 ft.....	\$8.00
4 to 5 ft.....	3.50	6 to 7 ft.....	6.50	8 to 10 ft.....	12.00

MALUS

Flowering Crab

Floribunda. A single, rose pink variety bearing an abundance of fruit even when young.

3 to 4 ft. \$4.50	4 to 5 ft. \$6.00
5 to 6 ft. 9.00	6 to 7 ft. 12.00

Hopa. Erect, symmetrical leaves tinged purple. Flowers large, red single; dark red fruit.

4 to 5 ft. \$3.00	5 to 6 ft. \$4.50
-------------------	-------------------

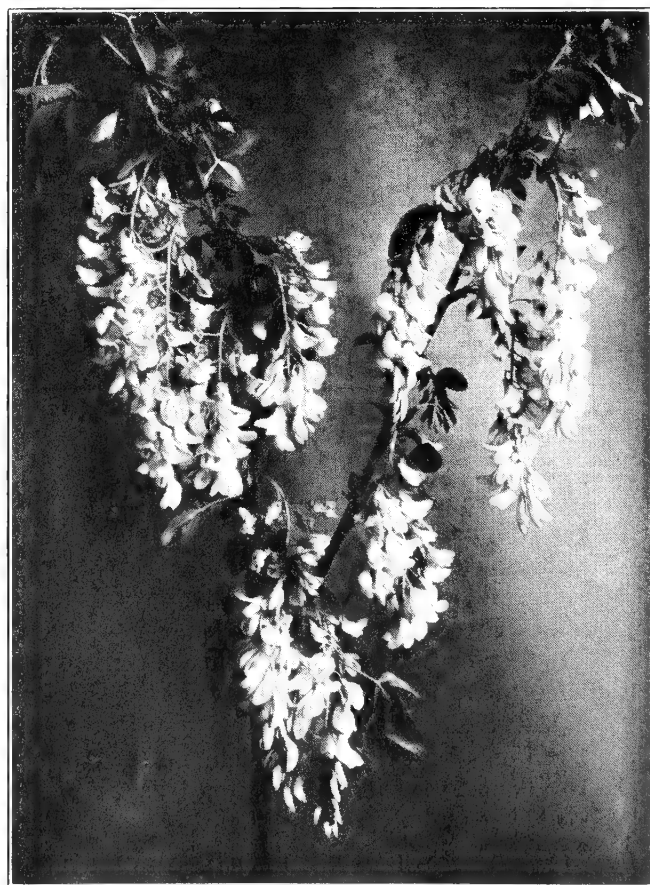

Ioensis bechteli (*Double Pink Crab*). A very fine variety with double pink flowers resembling a miniature Rose. Makes a shapely, compact tree.

3 to 4 ft.....	\$3.00
4 to 5 ft.....	4.50
5 to 6 ft.....	6.00
6 to 7 ft.....	7.50

Sargenti (*Sargent's Crab*). A dwarf variety, shrubby in habit. Sparkling white flowers and an abundance of small red fruit. The best variety where a small tree is desired which will not overgrow. Ideal for garden border or background.

3 to 4 ft. \$3.50	4 to 5 ft. \$5.00
-------------------	-------------------

(Continued on page 28)

Laburnum vossi

Flowering Crabs

MALUS—Continued

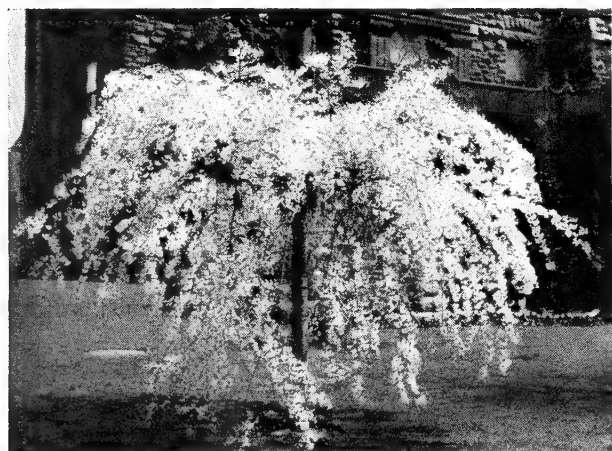

Theifera (*Tea Crab*). Irregular, spreading top with zig-zag branches completely clothed with flowers. Buds red, opening to single pink flowers. Fruits dull red.

3 to 4 ft.....	\$2.50	4 to 5 ft.....	\$4.50
5 to 6 ft.....			\$6.00

PRUNUS - Flowering Plums

Pissardi (*Purple-leaved Plum*). A lovely small, ornamental with purple foliage and dainty, pink blossoms.

5 to 6 ft.....	\$3.50	7 to 8 ft.....	\$6.00
6 to 7 ft.....	5.00	8 to 10 ft.....	10.00

Weeping Cherry

WEEPING CHERRIES

Subhirtella pendula (*Japanese Weeping Cherry*). A pendulous form of well known Flowering Cherries so admired at Washington, D. C. Bears a profusion of single or double pink flowers in early Spring.

2 yr. 6 ft. stems.....	\$6.00
------------------------	--------

Serrulata pendula. Double flowers a little later than Subhirtella. Color and form of bloom similar to Kwanzan.

2 yr., 6 ft. stems.....	\$6.00
-------------------------	--------

FLOWERING TREES—Continued

PRUNUS - Flowering Cherries

(*Serrulata Spectabilis Rosea*)

These are the oriental Cherries which are so famous in Washington. They are easily grown and will produce the almost phenomenal display in Spring which so many journey to Washington to see.

Fugenzo. Late bloomer. Unusually large, double pink flowers. Most popular variety.

5 to 6 ft.....	\$4.00
6 to 7 ft.....	6.00

Kwanzan. Large, double, deep pink flowers, almost red in bud. Well formed, vigorous grower which is very popular.

4 to 5 ft.....	\$2.50
5 to 6 ft.....	4.00
6 to 7 ft.....	6.00

Naden. A double deep pink variety of upright growth.

4 to 5 ft.....	\$2.50
----------------	--------

Paul Wohlert. Fragrant semi-double deep pink.

4 to 5 ft.....	\$2.50
----------------	--------

Shirotae. Finest double white, large and pure in color, flowers blanket well formed tree as would snow.

4 to 5 ft.....	\$2.50
5 to 6 ft.....	4.00

Tomentosa (*Nanking Cherry*). A large shrub, rather than tree. The straight, upright branches are completely surrounded by pale pink Cherry blossoms, arranged with utmost regularity. The red fruits are most decorative and sought after by birds.

3 to 4 ft.....	\$2.50
4 to 5 ft.....	4.00
5 to 6 ft.....	6.00

SORBUS - Mountainash

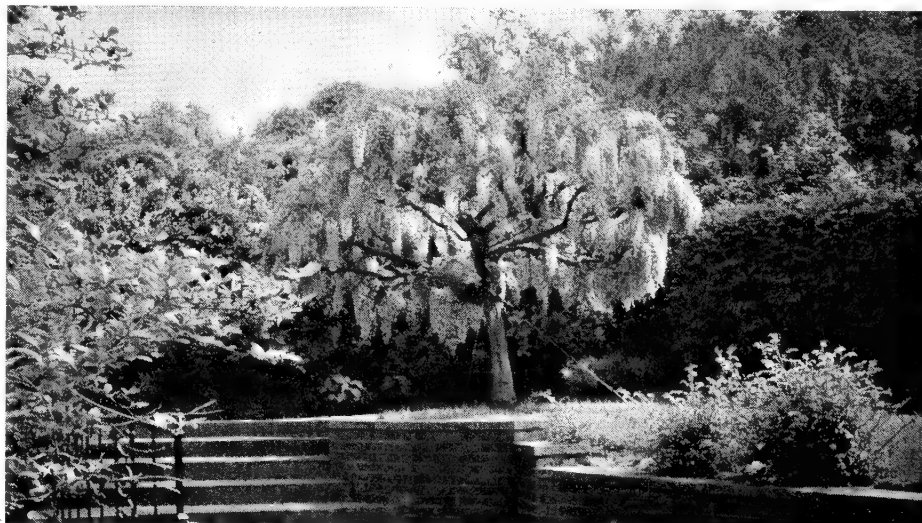

Aucuparia (*European Mountainash*). Well-formed tree with small leaves and bearing large clusters of orange red berries.

8 to 10 ft.....	\$3.50
10 to 12 ft.....	5.00
2 to 2½ in. caliper.....	7.50
2½ to 3 in. caliper.....	10.00

TREE WISTERIA

No more lovely sight can be imagined than a Tree Wisteria in bloom. The purplish blue flowers completely cover the tree during May, transforming it into a sheer beauty. In formal gardens, Tree Wisterias are indispensable. On the lawn they develop into beautiful specimens and live for generations, increasing in beauty and dignity each successive season. The plants we offer are grown on stems about 4 ft. high and the crowns are about 2½-3 ft. in diameter. Every plant has bloomed.

Sinensis, Tree Form, 4 to 5 ft. . Each \$9.00

Tree Wisteria

FRUIT TREES

FOR THE HOME GARDEN AND ORCHARD

We offer a time-tested list of fruit trees and bush fruits. Every planting should include at least a few of these. Many are as beautiful in blossom as the finest ornamental plants and all bear fruit which is incomparably better in flavor than that which is purchased in the markets. You will find the large fruits such as Apple and Peach, will provide you with as much color and beauty during the flowering season as any of the finest flowering trees and at the same time will provide luscious fruit later in the season. We are offering principally, two-year-old stock—the finest size for planting and in varieties of known hardiness and superior flavor.

The Department of Agriculture recommends the planting of Fruits. It now becomes apparent that we have ahead a long range program of feeding in the world. Some of these fruits will produce this year, others next year and all will add to your home food supply. Plant more fruits this Spring, you cannot start sooner.

APPLES

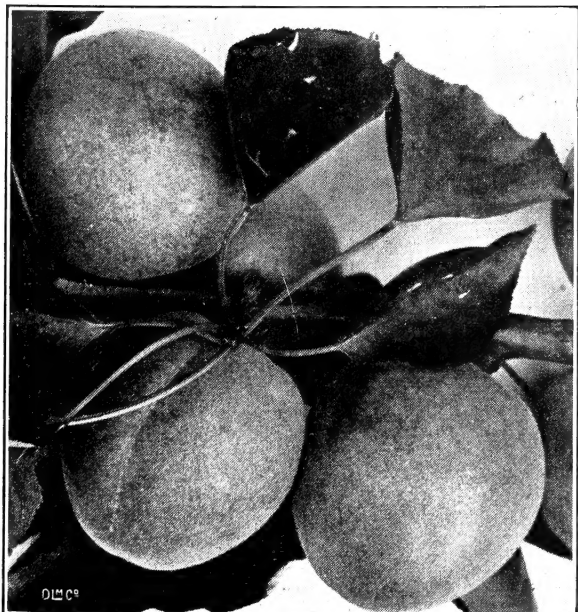

One of the most satisfactory of all lawn trees is a well proportioned Apple tree, attractive at all times and really gorgeous when in full bloom. It follows with a generous crop of one of the finest of all fruits.

TREE SIZES—We offer a wider and more complete selection of Apples this year than ever before. The following sizes are available.

2 YEAR OLD NO. 1 GRADE—5 to 7 ft. high, caliper 1 1/16 inch. The best size to plant for a good sized orchard but will take 4 years or more to bear. **\$1.75 each, 3 for \$5.00**

BEARING AGE TREES—Truly landscape size. These six and seven year old trees are 8 to 12 feet in height and have been several times transplanted, pruned, sprayed and cared for by an orchardist. They will caliper from 1 3/4 to 3 inches or over and will mostly bear as soon as established, many this year. We have had great success with this size and the immediate results give great satisfaction. Stock limited. Quality was never better. The spread and branching of the trees we offer this year is superior to any we have previously offered.

Priced according to height and spread—Each, \$12.00 to \$15.00

Moorpark Apricot

APPLE VARIETIES

Baldwin. Well known Red Winter Apple, keeps well and has a fine flavor. Available 2 yr. size.

Cortland. McIntosh type. Combines flavor and quality of McIntosh with tendency to hold to tree better than McIntosh. An improved variety. Bearing age.

Early McIntosh. Ideal early variety. Bears young and fruit is true McIntosh flavor and quality. Especially fine for home use. Available 2 yr.

Hyslop Crab. Most popular Crabapple for preserving. Large red fruit. Available in 2 yr.

McIntosh. Leading commercial variety for New York State. Attractive red Apple with white, tender juicy flesh. Fine eating and cooking. Bears fairly young. Available 2 yr. and Bearing Age.

McIntosh Red. Solid red color only distinguishing quality from regular McIntosh. Available in Bearing Age.

Macoun (New). Of the new varieties Macoun is unusually popular. It is like McIntosh in color, flavor and quality but ripens a little later. Available in Bearing Age only.

Bearing Age Apple

ESPALIER FRUIT TREES We offer a limited quantity of choice trained Apple and Pear trees. These are in a variety of styles and sizes and we invite inspection and inquiries.

FRUIT TREES—Continued

APPLES—Continued

- Milton.** New pinkish-red Apple of McIntosh type but ripens a month earlier. Flesh tender and very white. Available in Bearing Age.
- Northern Spy.** Winter Apple of unsurpassed flavor; large, bright red. Keeps well and bears well. Tree matures slowly. Available in 2 yr.
- Red Astrachan.** Early bright red Summer Apple. Fine tart flavor. Quick growing and early bearing. Available in 2 yr. and Bearing Age.
- Red Delicious.** Large, solid dark red Apple. Crisp fine grained quality and flavor. Excellent eating and good keeper. Available in 2 yr. and Bearing Age.
- Red Gravenstein.** Fall ripening, crisp tart-flavored red Apple. An improved sort. Popular. Available in 2 yr. and Bearing Age.
- R. I. Greening.** Yellowish green; unexcelled cooking Apple. Bears and keeps well. Available in 2 yr. and Bearing Age.
- Yellow Transparent.** Bright greenish yellow. Early Summer Apple for eating and cooking. Available in 2 yr.,

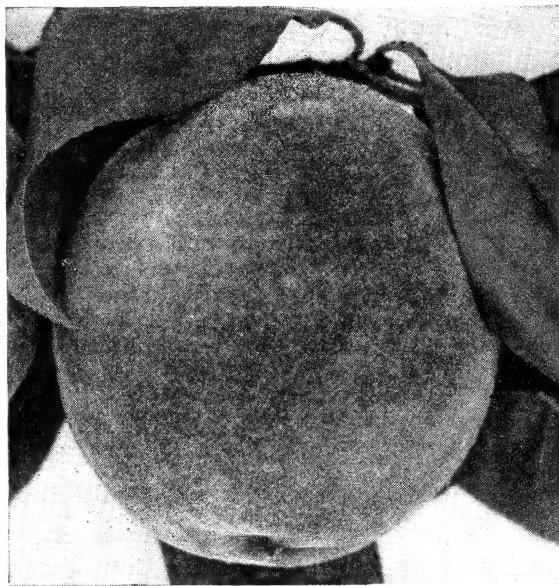

APRICOT

- Moorpark.** Large, round fruit. Orange with red cheek. Rich flavored, juicy flesh. 2 yr., 11/16 in. cal. \$2.00

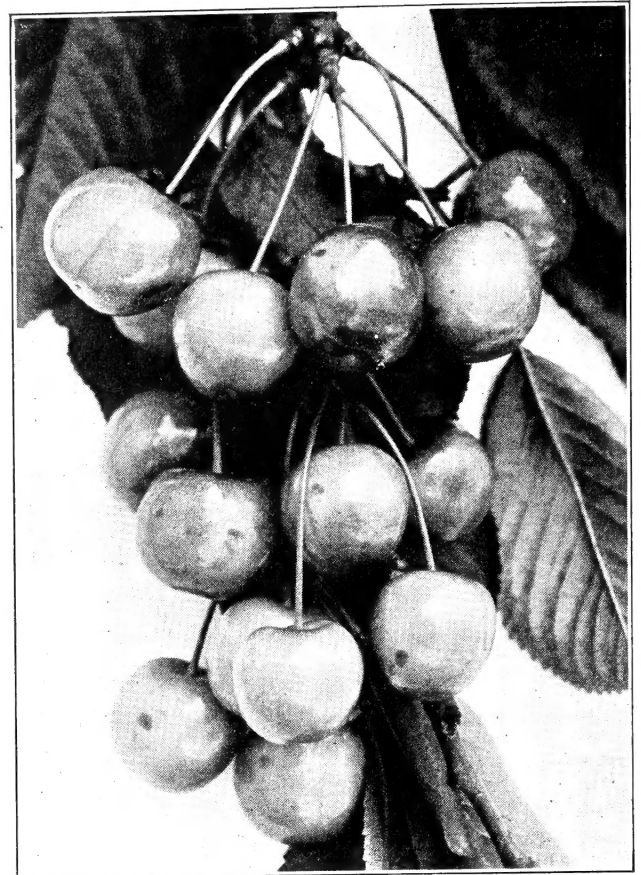

CHERRIES

11/16 in. caliper, 4 to 6 ft. ft. high, \$2.50 each, 3 for \$7.00

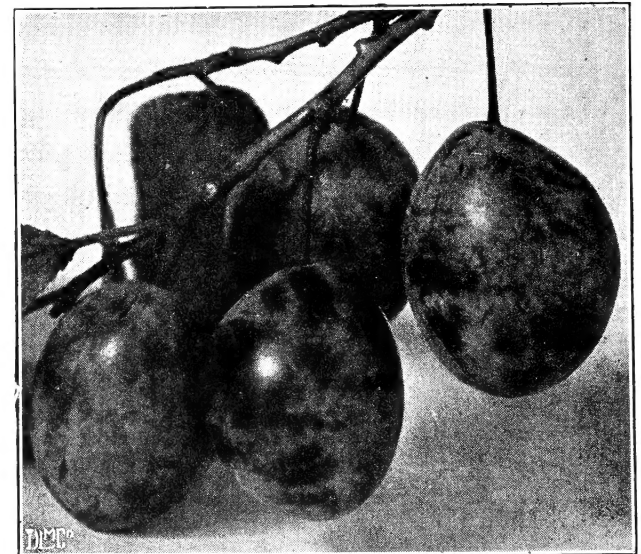

- Black Tartarian.** The favorite large, black sweet Cherry. Early ripening.
- Early Richmond.** Excellent early bright red. Sour Cherries for pies and home use.
- Governor Wood.** Large, light yellow and red fruit. Excellent for home use.
- Montmorency.** The best sour Cherry. Productive, hardy and of excellent flavor. Ripens early.
- Napoleon Bigarreau.** Early ripening. Large red fruit. Very productive and popular.
- Schmidt's Bigarreau.** Very large, purplish red Cherry of splendid flavor. Early.

Golden Jubilee Peach

Black Tartarian Cherry

Stanley Prune

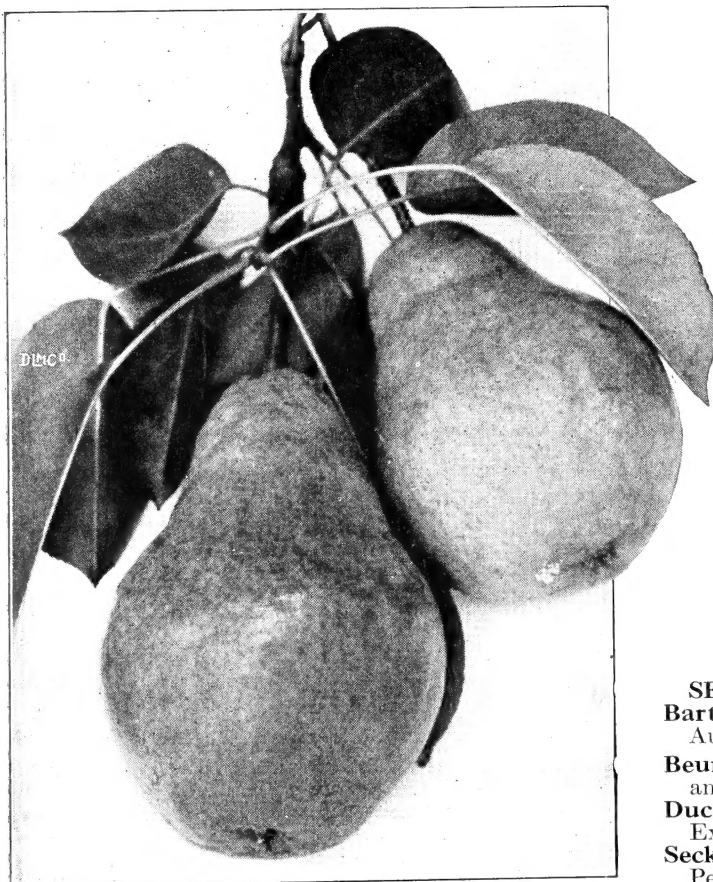

PEACHES

SELECTED
1 YR. BUDDED
TREES
3 to 5 feet, 9/16
in. caliper,
\$1.50 each, 3 for
\$4.00

- Belle of Georgia.** Well-known white freestone. A rich, creamy Peach with red blush. Ripens 8 days before Elberta.
- Crawford.** Yellow, late variety.
- Elberta.** Most popular and best known yellow Peach. Handles well and has good flavor. Freestone.
- Golden Jubilee.** Extremely popular, hardy new Peach. Large, golden yellow, red blushed. Freestone. Mid-August. Best early yellow.
- Hale-Haven (New).** Early yellow freestone. Very hardy and vigorous, combining the quality and appearance of J. H. Hale with the hardiness and vigor of South Haven.

PEARS

- SELECTED NO. 1 GRADE: 2 yr., 11/16 in. caliper, \$2.25 each, 3 for \$6.00
- Bartlett.** Most popular all-purpose Pears. Fine shape and color; excellent flavor. August-September.
- Beurre Bosc.** Large, deep yellow overspread with russet. Unsurpassed in quality and flavor. September.
- Duchesse D'Angouleme.** A dependable cropper fruiting while quite young. Excellent quality, white flesh and yellow spotted russet skin.
- Seckel.** One of the most delicious and ever popular varieties. Small, russet brown Pears, ripening in October. Bears abundantly.
- Sheldon.** Large, round, russet and red Pears of first quality. Late. October.

Bartlett Pear

FRUIT TREES—Continued

PLUMS

SELECTED FIRST-CLASS

2 year, 11/16 in. caliper, \$2.25 each,
3 for \$6.00

Abundance. Large, amber, sweet, early.

Burbank. Cherry red; good producer; early.

Fellenberg. Italian Prune. Delicious, solid fruit; one of the finest for commercial growing.

Red June. Red. Sweet, very early.

PLUMS—Continued

Reine Claude (Bevay's Green Gage). Similar to Green Gage. Large, pale yellow fruit flecked with red. Unsurpassed for richness of flavor.

Stanley Prune. Best for commercial or home use. Large, deep bluish-purple fruit with excellent, sweet flavor.

QUINCES

NO. 1 GRADE

Orange. Large, round, golden yellow. October.

2 yr. \$2.00

SMALL FRUITS

BLACKBERRIES

Alfred. The Mammoth Blackberry. For the home garden, Alfred is the ideal Blackberry. Tremendously large berries from 1½ to 1¾ in. long, practically free from seeds and extremely juicy.

Heavy plants. 25c. each, \$2.50 per doz.

BOYSENBERRY

From a triple cross involving Loganberries, Blackberries, and Raspberries, Boysenberries were bred by Rudolph Boysen, superintendent of Parks at Anaheim, Calif. They are now planted in almost every state in the union. We offer it because of the tremendous large size of the berries, because of its very prolific fruiting and because Boysenberries are the highest quality of all bramble fruits.

2 yr. Transplants. 35c. each, \$3.50 per doz.

BLUEBERRIES—Cultivated

A grand combination of luscious fruit on the most beautiful, ornamental shrub.

Cultivated Blueberries are the result of 25 years of experimenting. No spraying or difficult care necessary. Gigantic berries of exquisite flavor. Plants hardy at 30 degrees below zero.

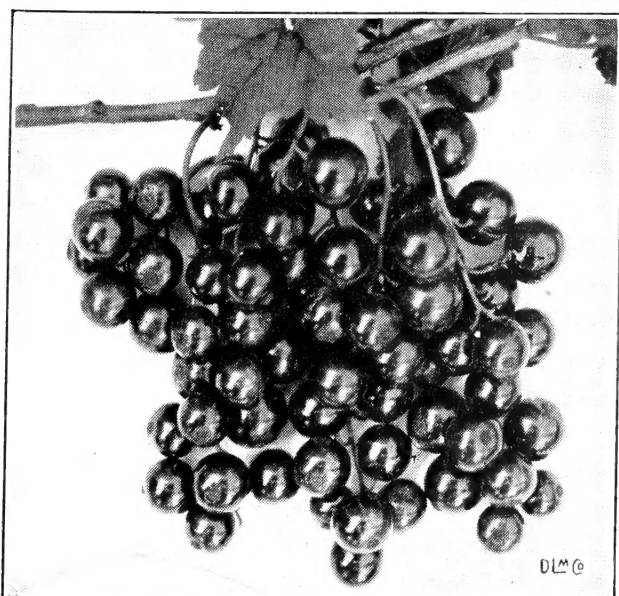

18-24 in. plants, 4 years old,
\$2.25 each, 5 for \$10.00, 12 for \$22.50
Varieties offered: Concord, Jersey,
Rancocas, Stanley

LARGE SPECIMEN CULTIVATED BLUEBERRIES

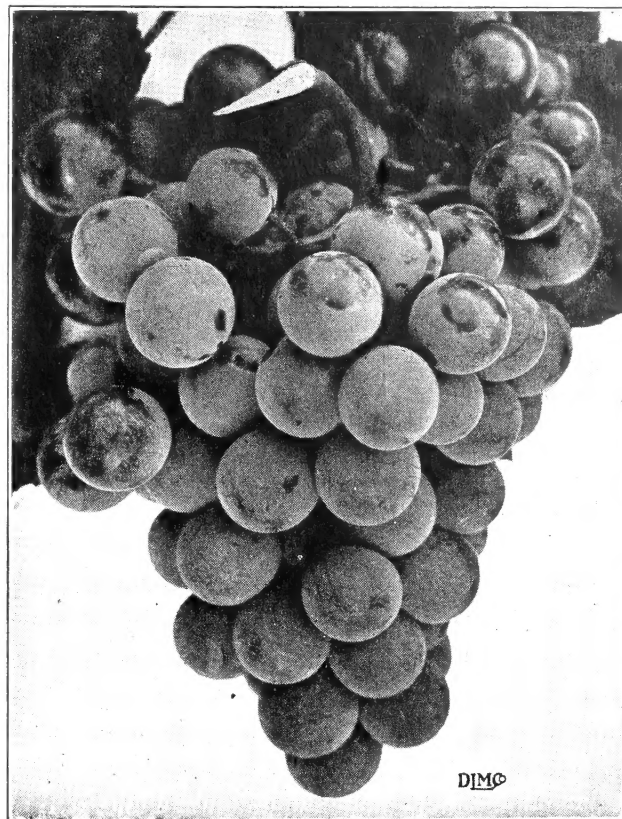

For the first time we offer a quantity of large specimen Blueberries. These plants are 4 to 5 feet tall, heavy and bushy. Very desirable for landscape effect and of course will bear quantities of berries as soon as established. Transplanting will undoubtedly prevent bearing much the first year. Available in following varieties at \$10.00 each. Cabot, Jersey, Pioneer, Rubel.

CURRENTS

New Red Lake. Finest of all Red Currants. The berry is unusually large in size and superior in quality. The clusters are long and filled out to the top. Heavy yields. 45c. each, \$4.00 per doz.

Red Lake Currant

Fredonia Grapes

RASPBERRIES

Indian Summer. Red everbearing. A grand new variety produced at Geneva Experiment Station. Produces a crop in early Spring and then again in the late Summer with the bulk of this Fall crop in October, continuing until killed by freezing weather. Berries are large and flavor mild, excellent quality. Vigorous. Hardy at Geneva. 2 yr. transplants. 40c. each, \$3.50 per doz.

Marcy. Red. Considered by many as the finest red Raspberry yet introduced. The fruit is very large, firm and high quality and the canes strong, thrifty and hardy. Introduced by N. Y. State Agricultural Experimental Station. 2 yr. transplants. 35c. each, \$3.00 per doz.

Newburgh. The world's finest Red Raspberry. Newburgh leads the field of Red Raspberry varieties in its desirable fruiting characteristics and productivity, but it has also proved itself to be practically immune to mosaic, the most dreaded Raspberry disease. The large, red berry holds its size for a long season, has a fine, mild flavor, and the berries do not crumble. Early ripening and extremely hardy.

25c. each, \$2.50 per doz.

Sodus. New purple Raspberry from N. Y. State Experimental Station. Fruit is large, firm, medium purple color and does not crumble; plants hardy and very productive. 2 yr. transplants. 35c. each, \$3.00 per doz.

Taylor. A new Red Raspberry. Plants are vigorous, hardy, and productive. Long, conical shape, firm, thick flesh. Fairly early. 35c. each, \$3.00 per doz.

Cultivated Blueberries

HARDY GRAPES

Caco. Wine red. Sweet, delicious flavor. Large berries earlier than Concord, our finest Grape.

2 yr. 75c.

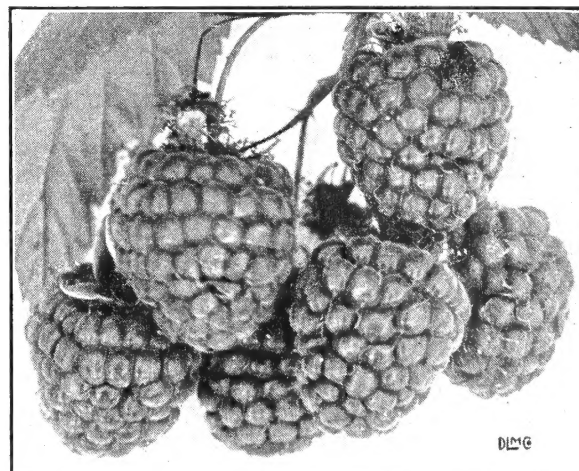

Concord. Most successful in this section. Blue black. 2 yr. 50c.

Delaware. Sweet red, vinous. 2 yr. 50c.

Fredonia (New). Promises to be the earliest good black Grape; vigorous, hardy, productive; one of best American red juice varieties. 2 yr. 50c.

Niagara. Pale green, sweet, ripens with Concord. 2 yr. 50c.

Portland. A newer white Grape and one of the best for this section. Very early with a delicious flavor. 2 yr. 50c.

Alfred Blackberry

Flowering Dogwoods

Americans should feel a lively pride whenever they think of or see a Dogwood, for it is a tree of purely American origin. It is clothed in beauty at all seasons. Rich beauty of bloom in Spring followed by deep green foliage turning rich red in Fall and covered with bright berries attractive to birds.

Our stock of both PINK and WHITE DOGWOOD is extensive in many sizes and attractively priced. See listing Page 26. Plant now.
